Index of Authors

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

ADAIR, G. S. *see* TSAO, T.-C. 27

ALDMAN, B., DICZFALUSY, E., HÖGBERG, B. & ROSENBERG, T. Inhibition of alkaline phosphatase by oestradiol phosphates 218

ALDRIDGE, W. N. The enzymic hydrolysis of diethyl *p*-nitrophenyl phosphate (E 600) i

ALEXANDER, P., FOX, M. & HUDSON, R. F. The reaction of oxidizing agents with wool. 5. The oxidation products of the disulphide bond and the formation of a sulphonamide in the peptide chain 129

ALTMANN, S. M., CROOK, E. M. & DATTA, S. P. Paper chromatography of keto acids lxiii

ANNISON, E. F. & MORGAN, W. T. J. The 'Lewis' (Le^a) human blood-group substance xxiv

ANSELL, G. B. *see* DAWSON, R. M. C. xxiv

APPLEYARD, G. The metabolism of creatine by a pseudomonad lxx

ARNSTEIN, H. R. V. Some aspects of the metabolism of D- and L-serine by the rat 439

*ASHFORD, C. A., ROBINSON, F. B. & YOFFEY, J. M. The Schultz reaction for cholesterol and cholesterol esters in the rat suprarenal xxxii

ATERMAN, K. & BOSCOTT, R. J. Urinary components in rats and human subjects with fibrosis of the liver lxxiv

BACON, J. S. D. *see* BEALING, F. J. lxxv; EDELMAN, J. 446, 529

BAILEY, J. M., THOMAS, G. J. & WHELAN, W. J. Selective inhibition of enzymic impurities associated with potato phosphorylase lvi

BAILEY, K. End-group assay in some proteins of the keratin-myosin group 23

BAILEY, K. *see also* TSAO, T.-C. 27

BALMAIN, J. H. & FOLLEY, S. J. Further observations on the *in vitro* stimulation by insulin of fat synthesis by lactating mammary gland slices 663

BARKER, S. A. & BOURNE, E. J. The oligosaccharides synthesized by *Escherichia coli* from maltose lxi

BARNETT, A. J. G. The colorimetric determination of lactic acid in silage 527

BATT, R. D. & WOODS, D. D. The oxidation of thymine by an unidentified bacterium lxx

BAYLISS, R. K. & POVER, W. F. R. An electronically controlled tensiometer for the study of changes in surface tension lxii

BEALING, F. J. & BACON, J. S. D. Sucrose breakdown by enzyme preparations from moulds lxxv

BEAVEN, G. H., HOCH, H. & HOLIDAY, E. R. The haemoglobins of the human foetus and infant. Electrophoretic and spectroscopic differentiation of adult and foetal types 374

BEER, C. T., DICKENS, F. & SALMONY, D. The nitration of benzoic and phenylacetic acids and phenylalanine: the chemical basis of the Mohler and Kapeller-Adler reactions 700

BELL, D. J. & MANNERS, D. J. An amylolytic degradation of rabbit-liver glycogen lxxvii

BERENBOM, M. & YOUNG, L. Biochemical studies of toxic agents. 3. The isolation of 1- and 2-naphthylsulphuric acid and 1- and 2-naphthylglucuronide from the urine of rats dosed with 1- and 2-naphthol 165

BERRY, W. K. The turnover number of cholinesterase 615

BHATIA, D. S. & PROCTOR, B. E. Effects of high-voltage cathode rays on aqueous solutions of histidine monohydrochloride 550

BIDWELL, E. & MACFARLANE, R. G. Observations on fibrinolysis. Is the activity produced by exercise due to plasmin? xlii

BIRD, L. H. *see* STERN, R. 335

BLAKLEY, R. L. The metabolism and antiketogenic effects of sorbitol. Sorbitol dehydrogenase 257

BLACKBURN, S. & LOWTHER, A. G. The action of organic acids on some fibrous proteins: the oxidation of wool keratin 554

BLASCHKO, H., FASTIER, F. N. & WAJDA, I. The inhibition of histaminase by amidines 250

BLASCHKO, H. & HAWKINS, J. Amine oxidase and D-amino-acid oxidase in cephalopods xliv

BONE, A. D. *see* WEIL-MALHERBE, H. 339, 348, 355

BONNER, W. D., jun. Activation of the heart-muscle succinic oxidase system viii

BONNER, W. D., jun. *see also* SLATER, E. C. 1 (*Proc.*)

BOOTH, R. G. *see* FAIRBRIDGE, R. A. 423

BOSCOTT, R. J. Paper chromatography of urinary acids and phenols lxxiv

BOSCOTT, R. J. *see also* ATERMAN, K. lxxiv

BOURNE, E. J. *see* BARKER, S. A. lxi

BOYD, G. S. Choline metabolism in the embryo chick vii

BOYLAND, E., GOSS, G. C. L. & WILLIAMS-ASHMAN, H. G. The hexokinase activity of animal tumours 321

BRADFIELD, J. R. G. & KODICEK, E. Abnormal mucopolysaccharide and 'precollagen' in vitamin C-deficient skin wounds xvii

BRAUNSBERG, H. A study of some fluorescent compounds of oestrone, oestradiol and oestriol xi

BRAY, H. G., CLOWES, R. C. & THORPE, W. V. The metabolism of azobenzene and *p*-hydroxyazobenzene in the rabbit lxv

BRAY, H. G., CLOWES, R. C. & THORPE, W. V. The metabolism of some benzoxazoles in the rabbit xxiii

BRAY, H. G., HYBS, Z., LAKE, H. J. & THORPE, W. V. The metabolism of 2:3:5:6-tetrachloronitrobenzene and 2:3:4:5-tetrachloronitrobenzene in the rabbit lxv

BRAY, H. G., THORPE, W. V. & VALLANCE, D. K. The liberation of chloride ions from organic chloro compounds by tissue extracts lv

BRAY, H. G., THORPE, W. V. & WASDELL, M. R. The metabolism of anisole and diphenyl ether in the rabbit liv

*BRAY, H. G., THORPE, W. V. & WHITE, K. Apparatus used for study of the kinetics of chemical reactions *in vivo* lxii

BRAY, H. G. & WHITE, K. Further observations on ethereal sulphate formation *in vivo* liii

BREMNER, J. M. & KENTEN, R. H. Paper chromatography of amines 651

BREWER, E. *see* KEKWICK, R. A. 253

BRIMLEY, R. C. *see* PARTRIDGE, S. M. 153

BROCKMAN, P. E. & GRAY, C. H. Further studies on porphobilinogen lxxi

BROOKS, R. V., KLYNE, W. & MILLER, E. Some steroids of pregnant mares' urine. Separation by chromatography of benzoates xl

BROOKS, R. V., KLYNE, W. & MILLER, E. The chromatography of steroid benzoates lxxii

BROUGHTON, P. M. G., HIGGINS, G. & O'BRIEN, J. R. P. Biochemical tests for cancer xlviii

BULLOCK, K. Resistance of acetylcholine esterase in dry preparations to certain organic solvents vii
BURCH, C. R. & ROGERS, A. F. An interferometer suitable for electrophoresis xxxii
BUTT, W. R., MORRIS, P., MORRIS, C. J. O. R. & WILLIAMS, D. C. The polarographic estimation of steroid hormones. 5. Determination of progesterone in blood 434

CAMPBELL, P. N., SIMMONDS, D. H. & WORK, T. S. The occurrence of glycerylphosphorylethanolamine in extracts of liver and yeast xvi
CAMPBELL, P. N. & WORK, T. S. Incorporation of blood amino-acids into milk proteins in the rabbit xlvi
CARTER, C. W. & PHIZACKERLEY, P. J. R. The influence of pyridoxine on fat metabolism in the rat 227
CAUSEY, G. & HARRIS, E. J. The uptake and loss of phosphate by frog muscle 176
CAVALLINI, D. The coupled oxidation of pyruvate with glutathione and cysteine 1
CECIL, R. The action of urea on the disulphide groups of oxidized glutathione and cystine 183
CECIL, R. & OGSTON, A. G. Determination of sedimentation and diffusion constants of horse-radish peroxidase. *Addendum to* Purification of horse-radish peroxidase and comparison of its properties with those of catalase and methaemoglobin (Keilin, D. & Hartree, E. F.) 105
CHANDRAN, K. & DAMODARAN, M. Amino-acids and proteins in haemoglobin formation. 2. Isoleucine 393
CLÉMENT, G. & MEARA, M. L. The component acids of the perinephric and interscapular fats of a rabbit 561
CLOWES, R. C. *see* BRAY, H. G. xxiii, lxv

Index of Subjects

Note. Entries marked with an asterisk (*) refer to communications made in title only.
Entries marked with a section mark (§) refer to contributions to Symposia.
Small roman numerals refer to pages in *Proceedings of the Biochemical Society.*

Acetaldehyde, effect on formation of ethyl acetate by *Hansenula anomala* (Peel, J. L.) 62
Acetaldehyde formation by the metabolism of glucose by *Hansenula anomala* (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58
Acetate, comparison with glucose as precursor of milk fat in the rabbit (French, T. H. & Popják, G.) iii
Acetate, ethyl, formation by washed suspensions of *Hansenula anomala* (Peel, J. L.) 62
Acetate, formation from serine in rat (Arnstein, H. R. V.) 434
Acetate metabolism of *Aerobacter aerogenes* (Dagley, S., Morrison, G. A. & Dawes, E. A.) lxxix
Acetate utilization by lactating mammary gland slices (Balmain, J. H. & Folley, S. J.) 663
Acetic acid formation by the metabolism of glucose by *Hansenula anomala* (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58
Acetic acid, synthesis of milk fat from, by perfused isolated bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Acetoacetate, conversion of tyrosine *in vitro* to (Knox, W. E. & LeMay-Knox, M.) 686
Acetoin, formation from pyruvate by *Lactobacillus arabinosus* (Nossal, P. M.) xliv
Acetoin, formation from pyruvate by *Lactobacillus plantarum* (Rowatt, E.) 453
Acetyl phosphate, effect of molybdate on hydrolysis of (Weil-Malherbe, H. & Green, R. H.) 286
Acetylcholine esterase, resistance in dry preparations to certain organic solvents (Bullock, K.) vii
Acids, fatty, synthesis in bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Acids, lipid, in faeces and organs of guinea pigs and rabbits (Cook, R. P. & Thomson, R. O.) 72
Acids, organic, action on some fibrous proteins (Blackburn, S. & Lowther, A. G.) 554
Aconitate, *cis-* and *trans-*, inhibition of pyruvate metabolism by *Lactobacillus plantarum* by (Rowatt, E.) 453
Adenosinediphosphate, effect on the enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Adenosinetriphosphatase of rabbit-muscle extracts (Weil-Malherbe, H. & Bone, A. D.) 355
Adenosinetriphosphate and enzymic formation of glutamine (Elliott, W. H.) 106
Adenosinetriphosphate, effect of molybdate on hydrolysis of (Weil-Malherbe, H. & Green, R. H.) 286
Adenosinetriphosphate of rat and rabbit bone marrow (Lutwak-Mann, C.) 300
Adenosinetriphosphate, phosphorylation of glucose by, reactions occurring in aqueous rat-brain extracts during (Weil-Malherbe, H. & Bone, A. D.) 339
Adenosinetriphosphate, reactivity of the labile phosphate groups of (Krebs, H. A., Johnson, M., Eggleston, L. V. & Hems, R.) xxxv
Adenosinetriphosphate, reversal of inhibition of pyruvate oxidation by (Judah, J. D.) 271
Adenosinetriphosphate, synthesis from coenzyme I and inorganic pyrophosphate (Judah, J. D.) 271
Adenylic deaminase of brain extracts (Weil-Malherbe, H. & Bone, A. D.) 339
Adenylic deaminase of rabbit-muscle extracts (Weil-Malherbe, H. & Bone, A. D.) 355
Adenylic deaminase of rat brain, effect of thiopentone anaesthesia on (Dawson, R. M. C.) 138
Adrenal cortex, rat, hydrolytic enzymes of (Gordon, J. J.) xxv
Adrenal medulla, cytochrome system of (Tsou, C. L.) 658
Adrenaline, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Adrenaline hydrochloride, effect on oxygen uptake in autolysing tissue (Dianzani, M. U.) 427
Adrenaline, partition chromatography of (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Aerobacter aerogenes, acetate metabolism (Dagley, S., Morrison, G. A. & Dawes, E. A.) lxxix
Aerobacter aerogenes, pyruvate metabolism of (Rowatt, E.) 453
Affinity of succinic oxidase for deuterated substrate (Thorn, M. B.) 602
Agmatine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 561
DL-α-Alanine and growth of *Lactobacillus casei* (Harry, E. G.) 5
Alanine, poly-, absence of anticoagulant activity in (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Alcohols, aliphatic, metabolism of (Kamil, I. A., Smith, J. N. & Williams, R. T.) xxxviii
Aldehyde mutase and the dismutation of formaldehyde (Kendal, L. P. & Ramanathan, A. N.) lvii
Ali-esterase of rat-heart preparations (Ord, M. G. & Thompson, R. H. S.) 191
Aliphatic alcohols, metabolism of (Kamil, I. A., Smith, J. N. & Williams, R. T.) xxxviii
Amide, amino-acid, in peanut plants (*Arachis hypogaea*) (Done, J. & Fowden, L.) x
Amidines, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
Amination of α-ketoglutarate and formate oxidation by formic dehydrogenase (Davison, D. C.) 520
Amine oxidase in cephalopods (Blaschko, H. & Hawkins, J.) xliv
Amines, filter-paper chromatography of, colour reaction with ninhydrin (Bemner, J. M. & Kenten, R. H.) 651
Amino groups of conalbumin, ovomucoid and avidin (Fraenkel-Conrat, H.) lxxviii
Amino-acid amide in peanut plants (*Arachis hypogaea*) (Done, J. & Fowden, L.) xx
Amino-acid interconversion during the germination of barley grains (Folkes, B. F.) xxvii
D-Amino-acid oxidase in cephalopods (Blaschko, H. & Hawkins, J.) xliv
Amino-acid oxidase, inactivity in autolysing tissue (Dianzani, M. U.) 427
Amino-acid sequence in the phenylalanyl chain of insulin (Sanger, F. & Tuppy, H.) 463, 481
Amino-acids, bound, in leaves (Synge, R. L. M.) 642
Amino-acids, effect on the growth of *Lactobacillus casei* A. T. C. 7469 in pteroyl glutamic acid-free media (Harry, E. G.) 5
Amino-acids in haemoglobin formation (Chandran, K. & Damodaran, M.) 393
Amino-acids in insulin (Phillips, D. M. P.) 506

Amino-acids in proteins, microbiological assay of (Folkes, B. F. & Yemm, E. W.) xxxi
Amino-acids of blood, incorporation into milk proteins in the rabbit (Campbell, P. N. & Work, T. S.) xlvi
Amino-acids of pepsin-modified cytochrome *c* (Tsou, C. L.) 367
Amino-acids, separation by displacement chromatography (Partridge, S. M. & Brimley, R. C.) 153
Amino-acids, synthesis in young roots of barley (Willis, A. J.) xxvii
Amino-acids, water-soluble poly-α-, action on blood clotting (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Ammonia, formation during autolysis (Dianzani, M. U.) 427
Ammonia, formation from adenosinetriphosphate by rat-brain extracts (Weil-Malherbe, H. & Bone, A. D.) 339
Ammonia, formation in bone marrow *in vitro* (Lutwak-Mann, C.) 300
Ammonia of rat brain, effect of thiopentone anaesthesia on (Dawson, R. M. C.) 138
Ammonium sulphate, effect on anthocyanin synthesis in cress (Eddy, B. P. & Mapson, L. W.) 694
α-Amylase, salivary, end products of the action on amylose (Roberts, P. J. P. & Whelan, W. J.) lvi
Amylolytic degradation of rabbit-liver glycogen (Bell, D. J. & Manners, D. J.) lxxvii
Amylose, end products of the action of salivary α-amylase on (Roberts, P. J. P. & Whelan, W. J.) lvi
Anaesthesia, thiopentone, metabolism and glutamic acid content of rat brain in relation to (Dawson, R. M. S.) 138
Aneurin, effect on pyruvate metabolism of *Lactobacillus plantarum* (Rowatt, E.) 453
Anion permeability of horse erythrocytes, action of acid phosphate on (Holton, F. A.) xix
Anisole, metabolism in the rabbit (Bray, H. G., Thorpe W. V. & Wasdell, M. R.) liv
Anthocyanin, synthesis in seedlings (Eddy, B. P. & Mapson, L. W.) 694
Anthraquinone derivatives from *Penicillium nalgiovensis* (Raistrick, H. & Ziffer, J.) 563
Antibiotics, effect on the growth of chicks deprived of B vitamins (Coates, M. E., Dickinson, C. D., Harrison, G. F. & Kon, S. K.) lxviii
Anticoagulant activity of poly-α-amino-acids (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Antiketogenic effects of sorbitol (Blakley, R. L.) 257
Antithyroid substances (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Antitryptophanase (Dolby, D. E. & Happold, F. C.) v
Apparatus for micro-filtration (Latner, A. L.) xxi
*Apparatus for the estimation of water and electrolyte exchange in rats (Cole, D. F. & Tranter, S. J.) lxii
*Apparatus used for study of the kinetics of chemical reactions *in vivo* (Bray, H. G., Thorpe, W. V. & White, K.) lxii
Apyrase of brain extracts (Weil-Malherbe, H. & Bone, A. D.) 339
Arachis hypogaea, peanut plants, a new amino-acid amide in (Done, J. & Fowden, L.) xx
Aromatic compounds, oxidation by soil bacteria (Evans, W. C. & Smith, B. S. W.) x
Aromatic rings, formation of β-ketoadipic acid by bacterial fission of (Kilby, B. A.) 671
Arsenicals, trivalent, behaviour of (Lotspeich, W. D. & Peters, R. A.) 704
Artichoke, fructose-transferring enzyme of (Edelman, J. & Bacon, J. S. D.) 529
Arylsulphatase, colorimetric determination of (Robinson, D., Smith, J. N. & Williams, R. T.) lxxiv
Ascorbic acid, action of pepsin-modified cytochrome *c* on (Tsou, C. L.) 367
Ascorbic acid and oxidation of reduced cytochrome *c* (Judah, J. D.) 271
Ascorbic acid, catalytic oxidation by adrenal medulla preparations (Tsou, C. L.) 658
Ascorbic acid, determination by tetrazolium salts (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Ascorbic acid, effect of pH on (Daglish, C.) 639
Ascorbic acid, effect on oxidation of *p*-hydroxyphenylpyruvic acid (Knox, W. E. & LeMay-Knox, M.) 686
Ascorbic acid in tissue extracts, spectrophotometric determination of (Daglish, C.) 635, 639
Ascorbic acid, inactivity of turacin towards (Keilin, J.) 544
Ascorbic acid, spectrophotometric determination of (Daglish, C.) 639
DL-Aspartate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* (Rowatt, E.) 453
Aspartic acid, poly-, absence of anticoagulant activity in (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Aspergillus niger, fermentations with mixed strains of (Yuill, J. L.) xix
Aspergillus niger, lack of effect on turacin (Keilin, J.) 544
Aspergillus oryzae, sucrose breakdown by enzyme preparations from (Bealing, F. J. & Bacon, J. S. D.) lxxv
Assimilation of nitrogen by barley roots (Yemm, E. W.) xxxi
Astaxanthin content of locusts, effect of breeding temperature on (Goodwin, T. W.) 86
Autolysis, aseptic, enzymes responsible for tissue respiration during (Dianzani, M. U.) 427
Avidin, amino groups of (Fraenkel-Conrat, H.) lxxviii
Azide compounds with peroxidase, spectra of (Keilin, D. & Hartree, E. F.) 88
Azobenzene, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) lxv

Bacillus subtilis, adaptation to fatty acids (Laser, H.) lxvi
Bacillus subtilis, lack of effect on turacin (Keilin, J.) 544
Bacteria, lack of effect on turacin (Keilin, J.) 544
Bacteria of rumen, effect of carbohydrates on growth of (McNaught, M. L.) 325
Bacteria, soil, oxidation of aromatic compounds by (Evans, W. C. & Smith, B. S. W.) x
Bacterial suspensions, apparatus for following hydrogen exchange reactions catalysed by (Couper, A.) xxxii
Bacteriophages T_2 and T_5, isolation of deoxypentose nucleic acids from strains of (Smith, J. D. & Wyatt, G. R.) 144
Bacterium, unidentified, oxidation of thymine by (Batt, R. D. & Woods, D. D.) lxx
Barbiturate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Barley, cytoplasmic and chloroplastic proteins of (Yemm, E. W.) xxvi
Barley grains, amino-acid interconversion during the germination of (Folkes, B. F.) xxvii
Barley roots, assimilation of nitrogen by (Yemm, E. W.) xxxi
Barley, synthesis of amino-acids in young roots of (Willis, A. J.) xxvii
Basal metabolic rate, relation of thyroid activity to (Haigh, C. P., Reiss, J. M. & Reiss, M.) xxv
Basic resin, separation of amino-acids by displacement chromatography using (Partridge, S. M. & Brimley, R. C.) 153
Bean, formic dehydrogenase of seeds of (Davison, D. C.) 520
Beetle, dried-fruit (*Carpophilus hemipterus*), nutrition of (Stride, G. O.) xxvi
Benzene, metabolism of (Parke, D. V. & Williams, R. T.) lii

Benzene urine, muconic acid in (Parke, D. V. & Williams, R. T.) lii
Benzoates, steroid, chromatography of (Brooks, R. V., Klyne, W. & Miller, E.) lxxii
Benzoates, steroid, separation by chromatography (Brooks, R. V., Klyne, W. & Miller, E.) xl
Benzoic acid, nitration of (Beer, C. T., Dickens, F. & Salmony, D.) 700
Benzoxazoles, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) xxiii
Benzoyl group, insulin derivatives substituted with (Stephen, J. M. L.) 629
Bicarbonate, ^{14}C-labelled, metabolism in the cat (Kornberg, H. L., Davies, R. E. & Wood, D. R.) lxxv
'Bile salts', comparative studies of (Haslewood, G. A. D. & Wootton, V. M.) 67
'Bile salts', pythocholic acid from (Haslewood, G. A. D.) 718
Blood clotting, action of some water-soluble poly-α-amino-acids on (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Blood corpuscles, red, activation of hexokinase activity of rat-brain extracts by (Weil-Malherbe, H. & Bone, A. D.) 348
Blood, determination of progesterone in (Butt, W. R., Morris, P., Morris, C. J. O. R. & Williams, D. C.) 434
Blood during pregnancy or lactation, growth hormone in samples of (Cotes, P. M. & Young, F. G.) lix
Blood-group substance, 'Lewis' (Le^a) (Annison, E. F. & Morgan, W. T. J.) xxiv
Blood plasma, spectrophotometric assay of ascorbic acid in, with *peri*naphthindanetrione hydrate (El Ridi, M. S., Moubasher, R. & Hassan, Z. F.) 246
Boa, bile acids of (Haslewood, G. A. D. & Wooton, V. M.) 67
Boidae, bile acids of (Haslewood, G. A. D. & Wootton, V. M.) 67
Boidae, pythocholic acid from (Haslewood, G. A. D.) 718
Bone marrow, phosphorus metabolism in (Lutwak-Mann C.) 300
Bone of normal rat, metabolism of collagen from (Perrone, J. C. & Slack, H. G. B.) lxxii
Bones, mammalian, collagen content of (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) xii
Bones, rat, calcium:phosphorus ratio in (Hartles, R. L.) 574
Bovine rumen, utilization of non-protein nitrogen in (McNaught, M. L.) 325
Brain cortex, human, lipids of cell nuclei from (Tyrrell, L. W. & Richter, D.) li
Brain extracts, rat, hexokinase activity of (Weil-Malherbe, H. & Bone, A. D.) 339
Brain homogenates, enzymic breakdown of a constituent of kephalin by (Sloane Stanley, G. H.) iv
Brain, mammalian, metabolism and electrical stimulation of sections (McIlwain, H.) 382
Brain, mammalian, preparation of soluble cholinesterases from (Ord, M. G. & Thompson, R. H. S.) 191
Brain, rat, glutamic acid content in relation to thiopentone anaesthesia (Dawson, R. M. C.) 138
Brain tissue, effect of 2:4-dinitrophenol on glycolysis in (Terner, C.) lxxiii
Brain tissue, metabolism of, effect of electrical stimulation on (McIlwain, H.) 382
Brain tissue, origin of ethanolaminephosphoric acid in (Dawson, R. M. C. & Ansell, G. B.) xxiv
Brassica napus L., rape leaf, constitution of hexadecatrienoic acid from the glycerides of (Heyes, J. K. & Shorland, F. B.) 503
Breeding temperature, effect on the carotenoid content of locusts (Goodwin, T. W.) 86
British anti-lewisite (BAL) as inhibitor of *iso*citric dehydrogenase (Lotspeich, W. D. & Peters, R. A.) 704
Buttercup, precursor of the vesicant substance of (Hill, R. & van Heyningen, R.) 332
Buttercup, protoanemonin obtained from species of (Hill, R. & van Heyningen, R.) 332

Cadaverine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Calciferol, analysis of the irradiation products of ergosterol and 7-dehydrocholesterol for (Green, J.) 232
Calcium, effect on respiration and glycolysis in sections of cerebral cortex (McIlwain, H. & Gore, M. B. R.) xliii
Calcium ions, effect on the enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Calcium, ratio to phosphorus in rat femur and incisor teeth, effect of high-sucrose diet on (Hartles, R. L.) 574
Cancer, biochemical tests for (Broughton, P. M. G., Higgins, G. & O'Brien, J. R. P.) xlviii
Carbohydrate absorption by rats in pyridoxine deficiency (Carter, C. W. & Phizackerley, P. J. R.) 227
Carbohydrate breakdown in bovine rumen contents during *in vitro* incubation (McNaught, M. L.) 325
Carbohydrates present in tubers, action of a hydrolytic enzyme system from *Helianthus tuberosus* L. on (Edelman, J. & Bacon, J. S. D.) 446
Carbon, determination in organic compounds in aqueous solution (Heald, P. J.) 684
Carbon dioxide, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
Carbon monoxide compounds with peroxidase, spectra of (Keilin, D. & Hartree, E. F.) 88
Carbon monoxide, effect on the level of energy-rich phosphate in surviving muscle (Lawrie, R. A.) lxvii
Carbon monoxide, effect on the respiration of *Trypanosoma lewisi* (Ryley, J. F.) 577
β-Carotene content of locusts, effect of breeding temperature on (Goodwin, T. W.) 86
β-Carotene, reaction with iodine trichloride (Green, J.) 36
β-Carotene, serum, variations in levels of, in cows near parturition (Goodwin, T. W. & Wilson, A. A.) 499
Carotenogenesis in *Phycomyces blakesleeanus* (Goodwin, T. W., Lijinsky, W. & Willmer, J. S.) liii
Carotenoid content of locusts, effect of breeding temperature on (Goodwin, T. W.) 86
Carotenoids of the fungus *Phycomyces blakesleeanus* (Goodwin, T. W.) xxiii
Carpophilus hemipterus (dried-fruit beetle), nutrition of (Stride, G. O.) xxvi
Casein hydrolysates as medium for pteroyl glutamic acid estimation (Harry, E. G.) 5
Castrated male rats, effect of sex hormones on the distribution of vitamin A in (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Cat, metabolism of ^{14}C-labelled bicarbonate in (Kornberg, H. L., Davies, R. E. & Wood, D. R.) lxxv
Catalase activity, suppression by peroxidase and its substrates (Stern, R. & Bird, L. H.) 335
Catalase, comparison of properties with those of horseradish peroxidase (Keilin, D. & Hartree, E. F.) 88
Catalase of wheat germ, action on hydrogen peroxide (Stern, R. & Bird, L. H.) 335
Catalytic activity of copper-porphyrins (Keilin, J.) 544
Catechin in tea-leaf juice (Roberts, E. A. H. & Wood, D. J.) 414
Catechins of tea leaf (Roberts, E. A. H. & Wood, D. J.) xxxiii
Cathode rays, high-voltage, effects on aqueous solutions of histidine monohydrochloride (Bhatia, D. S. & Proctor, B. E.) 550
Cell composition, effect of insulin on (Leslie, I. & Davidson, J. N.) xli

Cell fractions, liver, uptake of radioactive phosphorus by nucleotides in (Davidson, J. N., McIndoe, W. M. & Smellie, R. M. S.) xxxvi
Cell nuclei from human brain cortex, lipids of (Tyrrell, L. W. & Richter, D.) li
Cell, phosphorus compounds in (Davidson, J. N., Frazer, S. C. & Hutchison, W. C.) 311
Cellosolve in partition chromatography of ribonuclease (Martin, A. J. P. & Porter, R. R.) 215
Cephalopods, amine oxidase and D-amino-acid oxidase in (Blaschko, H. & Hawkins, J.) xliv
Cerebral cortex, effects on phosphates of stimulation of respiration and glycolysis in sections of (McIlwain, H. & Gore, M. B. R.) xliii
Chick embryo, choline metabolism in (Boyd, G. S.) vii
Chicks deprived of B vitamins, effect of antibiotics on the growth of (Coates, M. E., Dickinson, C. D., Harrison, G. F. & Kon, S. K.) lxviii
Chicks, vitamin B_{12} activity for, and micro-organisms of, gut contents and faeces of (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K., Porter, J. W. G., Cuthbertson, W. F. J. & Pegler, H. F.) lxvii
Chloride ions, liberation from organic chloro compounds by tissue extracts (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) lv
Chlorine in anthraquinone colouring matter of *Penicillium nalgiovensis* (Raistrick, H. & Ziffer, J.) 563
Chlorine, oxidation of wool with acid solutions of (Alexander, P., Fox, M. & Hudson, R. F.) 129
Chloro compounds, organic, liberation by tissue extracts of chloride ions from (Bray, H. G., Thorpe, W. V. & Vallance, D. K.) lv
dextro-1(or 8)-Chloro-4:5-dihydroxy-7-methoxy-2-hydroxypropylanthraquinone (nalgiolaxin) from *Penicillium nalgiovensis* and the triacetyl and dimethyl ether derivatives (Raistrick, H. & Ziffer, J.) 563
p-Chloromercuribenzoate, effect on enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Chloroplastic proteins of barley (Yemm, E. W.) xxvi
Cholanic acid, 3α:12:16(or 15)-trihydroxy- *see* Pythocholic acid
*Cholesterol and esters in the rat suprarenal, Schultz reaction for (Ashford, C. A., Robinson, F. B. & Yoffey, J. M.) xxxii
Cholesterol metabolism in man (Cook, R. P. & Edwards, D. C.) xli
Cholesterol, metabolism of (Cook, R. P. & Thomson, R. O.) 72
Cholesterol, synthesis in bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Cholic acid in bile of Boidae (Haslewood, G. A. D. & Wootton, V. M.) 67
*Choline esters, paper chromatography of (Wijesundera, S.) xlviii
Choline esters, separation by paper chromatography (Whittaker, V. P. & Wijesundera, S.) xlv
Choline metabolism in the embryo chick (Boyd, G. S.) vii
Cholinesterase, cobra venom, specificity of (Mounter, L. A.) xlv
Cholinesterase inhibition *in vitro* by *OO*-diethyl *O*-*p*-nitrophenyl thiophosphate (Diggle, W. M. & Gage, J. C.) 491
Cholinesterase, turnover number of (Berry, W. K.) 615
Cholinesterases, soluble, preparation from mammalian heart and brain (Ord, M. G. & Thompson, R. H. S.) 191
Chorioallantois, haem in (Ramsay, W. N. M.) 494
Chromatographic fractionation of ribonuclease (Martin, A. J. P. & Porter, R. R.) 215
Chromatography, automatic fraction collectors and a conductivity recorder for (James, A. T., Martin, A. J. P. & Randall, S. S.) 293
Chromatography, displacement, on synthetic ion-exchange resins (Partridge, S. M. & Brimley, R. C.) 153
Chromatography fraction collector (Crook, E. M. & Datta, S. P.) xxii
Chromatography of nucleic acids (Markham, R. & Smith, J. D.) 401
Chromatography of steroid benzoates (Brooks, R. V., Klyne, W. & Miller, E.) xl, lxxii
Chromatography, paper, analysis of inorganic compounds by (Pollard, F. H., McOmie, J. F. W. & Stevens, H. M.) xxxi
Chromatography, paper, horizontal (Meredith, P. & Sammons, H. G.) lxii
Chromatography, paper, of amines (Bremner, J. M. & Kenten, R. H.) 651
*Chromatography, paper, of choline esters (Wijesundera, S.) xlviii
Chromatography, paper, of keto acids (Altmann, S. M., Crook, E. M. & Datta, S. P.) lxiii
Chromatography, paper, of phosphate esters (Walker, D. G. & Warren, F. L.) xxi
Chromatography, paper, of urinary acids and phenols (Boscott, R. J.) lxxiv
Chromatography, paper, separation of choline esters by (Whittaker, V. P. & Wijesundera, S.) xlv
Chromatography, study of the polyphenols in tea leaf by paper chromatography (Roberts, E. A. H. & Wood, D. J.) 414
Chymotrypsin, action on insulin (Phillips, D. M. P.) 506
Chymotrypsin, degradation of insulin by (Stephen, J. M. L.) 629
Chymotrypsin, digestion of cytochrome *c* by (Tsou, C. L.) 362
Chymotrypsin, hydrolysis of a fraction of oxidized insulin by (Sanger, F. & Tuppy, H.) 481
Citraconic anhydride, attempts at purification of vitamins D by condensation with (Green, J.) 54
Citrate as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Citrate oxidation factor from yeast (Foulkes, E. C.) lx
Citric acid cycle, reversal of inhibition of pyruvate oxidation by (Judah, J. D.) 271
*iso*Citric acid, presence in pea seeds (Mapson, L. W. & Goddard, D. R.) 592
*iso*Citric dehydrogenase, action of sulphydryl inhibitors on (Lotspeich, W. D. & Peters, R. A.) 704
Clotting of blood, action of some water-soluble poly-α-amino-acids on (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Cobra venom cholinesterase, specificity of (Mounter, L. A.) xlv
Coccus, Gram-negative, formation of fatty acids by (Elsden, S. R., Gilchrist, F. M. C., Lewis, D. & Volcani, B. E.) lxix
Coenzyme I and formic dehydrogenase (Davison, D. C.) 520
Coenzyme I and oxidation of sorbitol to fructose (Blakley, R. L.) 257
Coenzyme I, oxidation of D-sorbitol using (Blakley, R. L.) 257
Coenzyme I, reduction by glyceraldehydephosphate (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Coenzyme I, reversal of inhibition of pyruvate oxidation by (Judah, J. D.) 271
Coenzyme II and reduction of glutathione (Mapson, L. W. & Goddard, D. R.) 592
Collagen content of mammalian bone (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) xii
Collagen from skin, metabolism in the normal rat (Perrone, J. C. & Slack, H. G. B.) lxxii

Collagen metabolism in the rat (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Colostrum of cows, vitamin A and β-carotene of (Goodwin, T. W. & Wilson, A. A.) 499
Combustion, wet, of organic compounds (Heald, P. J.) 684
Conalbumin, amino groups of (Fraenkel-Conrat, H.) lxxviii
Conductivity recorder for chromatography (James, A. T., Martin, A. J. P. & Randall, S. S.) 293
Copper ions in oxidation of glutathione or cysteine (Cavallini, D.) 1
Copper-porphyrins, turacin and the supposed catalytic activity of (Keilin, J.) 544
Copper titration, micro-estimation of porphyrins by (Oliver, I. T. & Rawlinson, W. A.) 157
Coproporphyrin III tetramethyl ester, estimation by copper titration (Oliver, I. T. & Rawlinson, W. A.) 157
Cortex, human brain, lipids of cell nuclei from (Tyrrell, L. W. & Richter, D.) li
Cortex, rat adrenal, hydrolytic enzymes of (Gordon, J. J.) xxv
Corynebacterium diphtheriae, isolation of αε-diaminopimelic acid from (Work, E.) 17
Corynebacterium diphtheriae, polysaccharide isolated from (Holdsworth, E. S.) xiv
Counter-current apparatus, construction of (Lathe, G. H. & Ruthven, C. R. J.) 540
Cows, variations in the serum β-carotene and vitamin A levels near parturition (Goodwin, T. W. & Wilson, A. A.) 499
Creatine, metabolism by a pseudomonad (Appleyard, G.) lxx
Creatine phosphate, effect of molybdate on hydrolysis of (Weil-Malherbe, H. & Green, R. H.) 286
Cress seedlings, anthocyanin in (Eddy, B. P. & Mapson, L. W.) 694
Crustacea, marine, distribution of vitamin A in the organs of (Fisher, L. R., Kon, S. K. & Thompson, S. Y.) xv
'Cryptoporphyrin', nature of (Lemberg, R. & Falk, J. E.) 674
Cyanide compounds with peroxidase, spectra of (Keilin, D. & Hartree, E. F.) 88
Cyanide, effect on the respiration of *Trypanosoma lewisi* (Ryley, J. F.) 577
Cyanide inactivation of succinic dehydrogenase (Tsou, C. L.) 512
Cyclopeptides, tropomyosin and myosin as (Bailey, K.) 23
Cysteine and oxidation of reduced cytochrome *c* (Judah, J. D.) 271
Cysteine and reduction of coenzyme I by glyceraldehyde-phosphate (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Cysteine, coupled oxidation of pyruvate with (Cavallini, D.) 1
Cysteine, determination by tetrazolium salts (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Cysteine, inactivity of turacin towards (Keilin, J.) 544
Cystine, action of urea on the disulphide groups of (Cecil, R.) 183
Cystine, wool, oxidation by performic acid (Blackburn, S. & Lowther, A. G.) 554
Cystinuria, application of polarography in a study of (Harris, H. & Warren, F. L.) xxii
Cytochrome *b*, abscence from *Veillonella gazogenes* (Johns, A. T.) 559
Cytochrome *b*, relation of succinic dehydrogenase to (Tsou, C. L.) 512
Cytochrome *c*-cytochrome oxidase system in oxidation of glutathione or cysteine (Cavallini, D.) 1
Cytochrome *c*, exogenous and endogenous (Tsou, C. L.) xlvii
Cytochrome *c* modified by digestion with proteolytic enzymes (Tsou, C. L.) 362, 367
Cytochrome *c*, oxidation of, and phosphorylation (Judah, J. D.) 271
Cytochrome oxidase, inactivity of pigments obtained from cytochrome *c* by proteolytic enzymes (Tsou, C. L.) 362
Cytochrome oxidase system, action of pepsin-modified cytochrome *c* on (Tsou, C. L.) 367
Cytochrome system, effect on the respiration of *Trypanosoma lewisi* (Ryley, J. F.) 577
Cytochrome system of adrenal medulla (Tsou, C. L.) 658
Cytoplasmic granules and β-glucuronidase metabolism (Walker, P. G. & Levvy, G. A.) 620
Cytoplasmic proteins of barley (Yemm, E. W.) xxvi

DDT *see* 1:1:1-Trichloro-2:2-*p*-chlorophenylethane
Deamination of the α-amino group of histidine by cathode rays (Bhatia, D. S. & Proctor, B. E.) 550
Decarboxylation of malic acid by *Lactobacillus arabinosus* (Nossal, P. M.) 407
Decarboxylation, oxidative, of pyruvate (Cavallini, D.) 1
Dehydroascorbic acid, reduction by extracts of pea seeds (Mapson, L. W. & Goddard, D. R.) 592
7-Dehydrocholesterol, irradiation of (Green, J.) 232
Dehydrogenase, *iso*citric, action of sulphydryl inhibitors on (Lotspeich, W. D. & Peters, R. A.) 704
Dehydrogenase, formic, studies on (Davison, D. C.) 520
Dehydrogenase, sorbitol, metabolism and antiketogenic effects of (Blakley, R. L.) 257
Dehydrogenase, succinic, and cytochrome *b* (Johns, A. T.) 559
Dehydrogenase, succinic, cyanide inactivation of and relation to cytochrome *b* (Tsou, C. L.) 512
Dehydrogenases in pea seeds (Mapson, L. W. & Goddard, D. R.) 592
Dentine, composition in the rat incisor (Hartles, R. L.) 574
Deoxygenation of dilute haemoglobin solutions by dithionite, side reactions in (Dalziel, K. & O'Brien, J. R. P.) xlvii
Deoxypentose nucleic acids, microbial, composition of (Smith, J. D. & Wyatt, G. R.) 144
Deoxypentose nucleic acids, non-diffusible 'cores' prepared from (Laland, S.) lxi
Deoxyribonucleic/ribonucleic acid ratio of rat and rabbit bone marrow (Lutwak-Mann, C.) 300
Desert locust (*Schistocerca gregaria* Forsk.), occurrence of a flavin in the eggs of and a pterin in the eyes of (Goodwin, T. W. & Srisukh, S.) 84
Detergents, effect on liver β-glucuronidase (Walker, P. G. & Levvy, G. A.) 620
Deuterium, succinate labelled with, oxidation of (Thorn, M. B.) 602
Diamidines, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
αε-Diaminopimelic acid, isolation from *Corynebacterium diphtheriae* and *Mycobacterium tuberculosis* (Work, E.) 17
Diaphragm cell, for ionophoresis (Synge, R. L. M.) 642
Dicarboxylic acids, reversal of inhibition of pyruvate oxidation by (Judah, J. D.) 271
Diethyl *p*-nitrophenyl phosphate (E 600), enzymic hydrolysis of (Aldridge, W. L.) i
Diethyl *p*-nitrophenyl phosphate, inhibition of cholinesterases by (Berry, W. K.) 615
OO-Diethyl *O*-*p*-nitrophenyl thiophosphate, cholinesterase inhibition *in vitro* by (Diggle, W. M. & Gage, J. C.) 491
Diffusion constants of horse-radish peroxidase, determination of (Cecil, R. & Ogston, A. G.) 105
Diffusion of carbon dioxide in the determination of uronic acid (Ogston, A. G. & Stanier, J. E.) 591

m-Digallic acid in tea-leaf juice (Roberts, E. A. H. & Wood, D. J.) 414
Digestion with proteolytic enzymes, cytochrome *c* modified by (Tsou, C. L.) 367
Diguanidines, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
Di*cyclo*hexyl fluorophosphonate, inhibition of cholinesterases by (Berry, W. K.) 615
Dihydroxymaleic acid, catalytic oxidation by peroxidase (Keilin, D. & Hartree, E. F.) 88
dextro-4:5-Dihydroxy-7-methoxy-2-hydroxypropylanthraquinone (nalgiovensin) from *Penicillium nalgiovensis* and the triacetyl dimethyl ether, acetyl dimethyl ether and trimethyl ether derivatives (Raistrick, H. & Ziffer, J.) 563
β-(2:5-Dihydroxy)phenylethylamine in normal human urine (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
2:5-Dihydroxyphenylpyruvate, oxidation to acetoacetate in liver (Knox, W. E. & LeMay-Knox, M.) 686
3:5-Diiodo-4-hydroxybenzaldehyde as thyroxine antagonist (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) 714
3:5-Diiodo-4-hydroxybenzoic acids, antithyroxine activity of (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) 710
Dimethylstilbamidine, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
2:4-Dinitrophenol, action on oxidative phosphorylation (Judah, J. D.) 271
2:4-Dinitrophenol, effect on glycolysis in mammary gland and in brain tissue (Terner, C.) lxxiii
2:4-Dinitrophenol, effect on respiration and glycolysis in sections of cerebral cortex (McIlwain, H. & Gore, M. B. R.) xliii
2:4-Dinitrophenol, influence on the Pasteur effect in bull spermatozoa (Melrose, D. R. & Terner, C.) i
2:4-Dinitrophenol, inhibition of pyruvate oxidation by (Judah, J. D.) 271
2:4-Dinitrophenol, point of action in the inhibition of oxidative phosphorylation (Terner, C.) ii
Dinitrophenyl group, insulin derivatives substituted with (Stephen, J. M. L.) 629
Diphenylchloroarsine as inhibitor of *iso*citric dehydrogenase (Lotspeich, W. D. & Peters, R. A.) 704
Diphenyl ether, metabolism in the rabbit (Bray, H. G., Thorpe, W. V. & Wasdell, M. R.) liv
2:2′-Dipyridyl, inhibition of anaerobic fermentation by (Ryley, J. F.) 577
Disulphide bond of wool, oxidation products of (Alexander, P., Fox, M. & Hudson, R. F.) 129
Disulphide groups of oxidized glutathione and cystine, action of urea on (Cecil, R.) 183
Dithionite, protection of succinic dehydrogenase from inactivation (Tsou, C. L.) 512
Dithionite, side reactions in the deoxygenation of dilute haemoglobin solutions by (Dalziel, K. & O'Brien, J. R. P.) xlvii
Di*iso*thiourea derivatives, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
Dried-fruit beetle (*Carpophilus hemipterus*), nutrition of (Stride, G. O.) xxvi

E 600 *see* Diethyl-*p*-nitrophenol phosphate
E 605, Parathion, cholinesterase inhibition *in vitro* by (Diggle, W. M. & Gage, J. C.) 491
Egg, embryonated hen, iron metabolism and haemoglobin formation in (Ramsey, W. N. M.) 494
Egg white, nucleic acid of (Fraenkel-Conrat, H. & Ducay, E. D.) xxxix
Eggs of the African migratory locust (*Locusta migratoria migratorioides* R. & F.) and the desert locust (*Schistocerca gregaria* Forsk.), flavin in (Goodwin, T. W. & Srisukh, S.) 84
Electrical and chemical energy relations for the stomach (Crane, E. E. & Davies, R. E.) 169
Electrical stimulation of rats in necrosis and effect on glutamic acid (Dawson, R. M. C.) 138
Electrical stimulation of respiration and glycolysis in sections of cerebral cortex, effect on phosphates of (McIlwain, H. & Gore, M. B. R.) xliii
Electrical stimulation of sections of mammalian brain (McIlwain, H.) 382
*Electrolyte and water exchange in rats, apparatus for the estimation of (Cole, D. F. & Tranter, S. J.) lxii
Electrophoresis cell, preparative, new type of (Kekwick, R. A., Lyttleton, J. W., Brewer, E. & Dreblow, E. S. O.) 253
Electrophoresis, interferometer suitable for (Burch, C. R. & Rogers, A. F.) xxxii
Electrophoresis of enzymes on filter paper (Mills, G. T. & Smith, E. E. B.) vi
Electrophoretic examination of adult and foetal haemoglobins (Beaven, G. H., Hoch, H. & Holiday, E. R.) 374
Embryo, blood supply of (Ramsay, W. N. M.) 494
Embryo chick, choline metabolism in (Boyd, G. S.) vii
Enamel, composition in the rat incisor (Hartles, R. L.) 574
End-group assay in some proteins of the keratin-myosin group (Bailey, K.) 23
Energy, activation, for deuterated substrates (Thorn, M. B.) 602
Energy relations for the stomach (Crane, E. E. & Davies, R. E.) 169
Enzyme, glucuronide-decomposing, from rumen micro-organisms (Karunairatnam, M. C. & Levvy, G. A.) 210
Enzyme preparations from moulds, sucrose breakdown by (Bealing, F. J. & Bacon, J. S. D.) lxxv
Enzyme system, hydrolytic, from *Helianthus tuberosus* L., action on carbohydrates present in the tubers (Edelman, J. & Bacon, J. S. D.) 446
Enzymes, electrophoresis on filter paper (Mills, G. T. & Smith, E. E. B.) vi
Enzymes, hydrolytic, of rat adrenal cortex (Gordon, J. J.) xxv
Enzymes, proteolytic, cytochrome *c* modified by digestion with (Tsou, C. L.) 362
Enzymes responsible for tissue respiration during aseptic autolysis (Dianzani, M. U.) 427
Enzymic impurities associated with potato phosphorylase, inhibition of (Bailey, J. M., Thomas, G. J. & Whelan, W. J.) lvi
Enzymic oxidation of deuterated succinate (Thorn, M. B.) 602
Enzymic synthesis of glutamine (Elliott, W. H.) 106
Ephedrine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Epithelium, sheep rumen, metabolism of lower fatty acids by (Pennington, R. J.) lix
Ergosterol, irradiation of (Green, J.) 232
Erythrocytes, activator of hexokinase in (Weil-Malherbe, H. & Bone, A. D.) 339
Erythrocytes, cholinesterase of (Berry, W. K.) 615
Erythrocytes, horse, action of acid phosphate on the anion permeability of (Holton, F. A.) xix
Escherichia coli, isolation of deoxypentose nucleic acids from strains of (Smith, J. D. & Wyatt, G. R.) 144
Escherichia coli, oligosaccharides synthesized from maltose by (Barker, S. A. & Bourne, E. J.) lxi
Ester formation by yeasts (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58; (Peel, J. L.) 62
Esterase, acetylcholine, resistance in dry preparations to certain organic solvents (Bullock, K.) vii
Esterase, pseudo-choline, kinetics of (Eley, D. D. & Stone, G. S.) xxx
Ethanol as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149

Ethanol dehydrogenase in pea seeds (Mapson, L. W. & Goddard, D. R.) 592
Ethanol formation by the metabolism of glucose by *Hansenula anomala* (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58
Ethanolamine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Ethanolaminephosphoric acid, origin in brain tissue (Dawson, R. M. C. & Ansell, G. B.) xxiv
Ethereal sulphate formation from phenols *in vivo*, kinetics of (Bray, H. G. & White, K.) liii
Ethyl acetate formation by *Hansenula* species (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58; (Peel, J. L.) 62
Ethylene glycol monoethyl ether in partition chromatography of ribonuclease (Martin, A. J. P. & Porter, R. R.) 215
Exchange, hydrogen, reactions catalysed by bacterial suspensions, apparatus for following (Couper, A.) xxxii
Exercise, fibrinolytic activity produced by (Bidwell, E. & Macfarlane, R. G.) xlii
Explants, chick heart, effect of insulin on (Leslie, I. & Davidson, J. N.) xli
Extracellular potassium, exchange with intracellular potassium in liver, gut, kidney, heart and lung (D'Silva, J. L. & Neil, M. W.) 222
Extracellular spaces, deposition of radioactive compounds in (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Extractor, continuous, for liquids (Dobson, F. & Randall, S. S.) 399

Faecal lipids, human (Edwards, D. C. & Cook, R. P.) xli
Faeces of chicks, micro-organisms of (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K., Porter, J. W. G., Cuthbertson, W. F. J. & Pegler, H. F.) lxvii
Fat absorption and metabolism in the rat, influence of pyridoxine on (Carter, C. W. & Phizackerley, P. J. R.) 227
Fat, milk, comparison between glucose and acetate as precursors of, in the rabbit (French, T. H. & Popják, G.) ii
Fat, milk, synthesis from acetic acid ($CH_3{}^{14}COOH$) (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Fat, rabbit, perinephric and interscapular, component fatty acids of (Clément, G. & Meara, M. L.) 561
Fat synthesis by lactating mammary gland slices, *in vitro* stimulation by insulin of (Balmain, J. H. & Folley, S. J.) 663
Fatty acids, adaptation of *Bacillus subtilis* to (Laser, H.) lxvi
Fatty acids, distribution in rabbit depot fats (Clément, G. & Meara, M. L.) 561
Fatty acids, formation by a Gram-negative coccus (Elsden, S. R., Gilchrist, F. M. C., Lewis, D. & Volcani, B. E.) lxix
Fatty acids, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
Fatty acids, metabolism by sheep rumen epithelium (Pennington, R. J.) lix
Fatty acids, oxidation by liver slices from pyridoxine-deficient rats (Carter, C. W. & Phizackerley, P. J. R.) 227
Fatty acids, synthesis in bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Femur, rat, calcium/phosphorus ratio in (Hartles, R. L.) 574
Fermentations with mixed strains of *Aspergillus niger* (Yuill, J. L.) xix
Ferricyanide and oxidative phosphorylation (Judah, J. D.) 271
Fibrinogen, end groups of (Bailey, K.) 23
Fibrinogen monolayers at the air-water interface (Eley, D. D., Grant, R. A. & Taylor, K. B.) xxix
Fibrinogen, sensitivity of, non-influence of poly-amino-acids on (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Fibrinolysis, observations on (Bidwell, E. & Macfarlane, R. G.) xlii
Fibrosis of the liver, urinary components in rats with (Aterman, K. & Boscott, R. J.) lxxiv
Fibrous proteins, action of organic acids on (Blackburn, S. & Lowther, A. G.) 554
Film measurements, surface, for 'apparent protein' in human urine (Tárnoky, A. L.) 205
Filter outfit for the short-wave ultraviolet (Markham, R. & Smith, J. D.) 407
Filtration, micro-, apparatus for (Latner, A. L.) xxi
Fish-liver oils, chemical determination of vitamin D in (Green, J.) 243
Flagellates, metabolism of (Ryley, J. F.) 577
Flame photometer, estimation of sodium and potassium using (McGowan, G. K. & Smart, J.) xxxi
Flavin, occurrence in the eggs of the African migratory locust (*Locusta migratoria migratorioides* R. & F.) and the desert locust (*Schistocerca gregaria* Forsk.) (Goodwin, T. W. & Srisukh, S.) 84
Floridin earth, destruction of vitamin A on (Green, J.) 45
Floridin, use in chromatography in fish-liver oils (Green, J.) 243
Fluorescent compounds from oestrone, oestradiol and oestriol (Braunsberg, H.) xi
Fluoride compounds with peroxidase, spectra of (Keilin, D. & Hartree, E. F.) 88
Fluoride, effect on enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Fluoride, inhibition of the succinic oxidase system by (Slater, E. C. & Bonner, W. D. jun.) 1 (*Proc.*)
Fluorodinitrobenzene method for study of end groups of fibrous proteins (Bailey, K.) 23
Foetus, human, haemoglobins of (Beaven, G. H., Hoch, H. & Holiday, E. R.) 374
Formaldehyde, aldehyde mutase and the dismutation of (Kendal, L. P. & Ramanathan, A. N.) lvii
Formate as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Formic dehydrogenase in pea seeds (Mapson, L. W. & Goddard, D. R.) 592
Formic dehydrogenase, studies on (Davison, D. C.) 520
Fraction collector, chromatography (Crook, E. M. & Datta, S. P.) xxii
Fraction collectors, automatic, for chromatography (James, A. T., Martin, A. J. P. & Randall, S. S.) 293
Frog gastric mucosa, metabolic quotient of (Crane, E. E. & Davies, R. E.) 169
Frog jelly, examination of (James, S. P.) liv
Frog muscle, uptake and loss of phosphate by (Causey, G. & Harris, E. J.) 176
Fructofuranosidase of *Helianthus tuberosus* L. (Edelman, J. & Bacon, J. S. D.) 446
Fructose, effect of brain extracts on phosphorylation of (Weil-Malherbe, H. & Bone, A. D.) 348
Fructose, phosphorylation by tumour enzyme (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Fructose-transferring enzymes of the tubers of *Helianthus tuberosus* L. (artichoke) (Edelman, J. & Bacon, J. S. D.) 529
Fumarate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* (Rowatt, E.) 453
Fungus *Phycomyces blakesleeanus*, carotenoids of (Goodwin, T. W.) xxiii

Gallic acid in tea-leaf juice (Roberts, E. A. H. & Wood, D. J.) 414
Gallocatechin in tea-leaf juice (Roberts, E. A. H. & Wood, D. J.) 414
Galloyl esters in tea-leaf juice (Roberts, E. A. H. & Wood, D. J.) 414
Germination of barley grains, amino-acid interconversion during (Folkes, B. F.) xxvii
Gipsy-moth polyhedral virus, isolation of deoxypentose nucleic acids from strains of (Smith, J. D. & Wyatt, G. R.) 144
Globin in the rat, biosynthesis of (Muir, H. M., Neuberger, A. & Perrone, J. C.) lv
Glucosamine, determination by alkaline decomposition (Tracey, M. V.) xx
Glucosamine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Glucose, acceleration of decarboxylation of L-malic acid by (Nossal, P. M.) 407
Glucose as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Glucose as product of the metabolism by *Hansenula anomala* of (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58
Glucose, comparison with acetate as precursors of milk fat in the rabbit (French, T. H. & Popják, G.) iii
Glucose, determination by tetrazolium salt (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Glucose, effect of brain extracts on phosphorylation of (Weil-Malherbe, H. & Bone, A. D.) 348
Glucose, effect on formation of ethyl acetate by *Hansenula anomala* (Peel, J. L.) 62
Glucose, effect on pyruvate metabolism of *Lactobacillus plantarum* (Rowatt, E.) 453
Glucose, fermentation by *Trypanosoma lewisi* (Ryley, J. F.) 577
Glucose, phosphorylation by adenosinetriphosphate reactions occurring in aqueous rat-brain extracts during (Weil-Malherbe, H. & Bone, A. D.) 339
Glucose, phosphorylation by tumour enzyme (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Glucose utilization by lactating mammary gland slices (Balmain, J. H. & Folley, S. J.) 663
Glucuronic acid, conjugation of naphthol with (Berenbom, M. & Young, L.) 165
β-Glucuronidase, assay in animal tissues (Walker, P. G. & Levvy, G. A.) lxxvi
β-Glucuronidase, effect of detergents on, in liver (Walker, P. G. & Levvy, G. A.) 620
Glucuronide-decomposing enzyme from rumen micro-organisms (Karunairatnam, M. C. & Levvy, G. A.) 210
Glucuronide, formation of (Kamil, I. A., Smith, J. N. & Williams, R. T.) xxxviii
Glutamate, enzymic formation of glutamine from (Elliott, W. H.) 106
L-Glutamate, phosphorus/oxygen ratios in oxidative phosphorylation (Judah, J. D.) 271
Glutamate salts, effect on respiration and glycolysis in sections of cerebral cortex (McIlwain, H. & Gore, M. B. R.) xliii
L-Glutamic acid and growth of *Lactobacillus casei* (Harry, E. G.) 5
Glutamic acid content of rat brain in relation to thiopentone anaesthesia (Dawson, R. M. C.) 138
Glutamic acid, poly-, absence of anticoagulant activity in (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Glutaminase of rat brain, effect of thiopentone anaesthesia on (Dawson, R. M. C.) 138
Glutamine, enzymic synthesis of (Elliott, W. H.) 106
Glutathione, coupled oxidation of pyruvate with (Cavallini, D.) 1
Glutathione, oxidized, action of urea on the disulphide groups of (Cecil, R.) 183
Glutathione, reduction by plant tissues (Mapson, L. W. & Goddard, D. R.) 592
Glyceraldehyde, inhibition of glycolysis by (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Glyceraldehydephosphate oxidation, inhibition of (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Glycerides of rape leaf, constitution of hexadecatrienoic acid from (Heyes, J. K. & Shorland, F. B.) 503
Glycerol as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Glycerol, effect on metabolism of mammary gland slices (Balmain, J. H. & Folley, S. J.) 663
α-Glycerophosphate dehydrogenase, inactivity in autolysing tissue (Dianzani, M. U.) 427
Glycerylphosphorylethanolamine, occurrence in extracts of liver and yeast (Campbell, P. N., Simmonds, D. H. & Work, T. S.) xvi
Glycine, formation from serine in the rat (Arnstein, H. R. V.) 439
Glycine, incorporation into proteins of the rat (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Glycogen, rabbit-liver, amylolytic degradation of (Bell, D. J. & Manners, D. J.) lxxvii
Glycolysis, anaerobic, of tumour slices (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Glycolysis in mammary gland and in brain tissue, effect of 2:4-dinitrophenol on (Terner, C.) lxxiii
Glycolysis, inhibition by glyceraldehyde (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Glycolysis, stimulation in sections of cerebral cortex, effect on phosphates (McIlwain, H. & Gore, M. B. R.) xliii
Glyoxaline ring, fission of (Bhatia, D. S. & Proctor, B. E.) 550
Glyoxalines, mercapto-, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Grains, barley, amino-acid interconversion during the germination of (Folkes, B. F.) xxvii
Granules, cytoplasmic, and β-glucuronidase metabolism (Walker, P. G. & Levvy, G. A.) 620
Growth hormone in samples of blood and urine obtained during pregnancy or lactation (Cotes, P. M. & Young, F. G.) lix
Guinea pig, cholesterol metabolism in (Cook, R. P. & Thomson, R. O.) 72
Gut contents of chicks, micro-organisms of (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K., Porter, J. W. G., Cuthbertson, W. F. J. & Pegler, H. F.) lxvii
Gut, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222

Haem *a*, spectrographic comparison with known compounds (Lemberg, R. & Falk, J. E.) 674
Haematopoiesis in rats, effect of isoleucine on (Chandran, K. & Damodaran, M.) 393
Haemoglobin formation, amino-acids and proteins in (Chandran, K. & Damodaran, M.) 393
Haemoglobin formation in the embryonated hen egg (Ramsay, W. N. M.) 494
Haemoglobin, side reactions in the deoxygenation by dithionite of dilute solutions of (Dalziel, K. & O'Brien, J. R. P.) xlvii
Haemoglobins of the human foetus and infant (Beaven, G. H., Hoch, H. & Holiday, E. R.) 374
Hansenula anomala, formation of ethyl acetate by washed suspensions of (Peel, J. L.) 62
Hansenula species, ethyl acetate formation by (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58
Heart explants, chick, effect of insulin on (Leslie, I. & Davidson, J. N.) xli

Heart, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222
Heart, mammalian, preparation of soluble cholinesterases from (Ord, M. G. & Thompson, R. H. S.) 191
Heart-muscle succinic oxidase system, activation of (Bonner, W. D., jun.) viii
Heat-sensitive compounds, apparatus for extraction and concentration of (Dobson, F. & Randall, S. S.) 399
Helianthus tuberosus L. (artichoke), hydrolytic enzyme system from, action on carbohydrates present in tubers (Edelman, J. & Bacon, J. S. D.) 446
Helianthus tuberosus L. (artichoke), transfructosidation in extracts of the tubers of (Edelman, J. & Bacon, J. S. D.) 529
Hen egg, embryonated, iron metabolism and haemoglobin formation in (Ramsay, W. N. M.) 491
Heparin, antiheparin activity of poly-amino-acids (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Hexadecatrienoic acid from the glycerides of rape leaf, constitution of (Heyes, J. K. & Shorland, F. B.) 503
Hexofuranose and hexopyranose, possible interconversion by hexokinase activation of muscle (Weil-Malherbe, H. & Bone, A. D.) 355
Hexokinase activities of rat tissues (Long, C.) xxxiv
Hexokinase activity of animal tumours (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Hexokinase, Michaelis constant of (Weil-Malherbe, H. & Bone, A. D.) 339
Hexokinase of rabbit-muscle extracts (Weil-Malherbe, H. & Bone, A. D.) 355
Hexokinase, studies on (Weil-Malherbe, H. & Bone, A. D.) 339, 348, 355
Hexopyranose and hexofuranose, possible interconversion by hexokinase activation of muscle (Weil-Malherbe, H. & Bone, A. D.) 355
Hexoses and nitrogen compounds of bovine rumen contents (McNaught, M. L.) 325
Hexoses, effect on decarboxylation of malic acid by (Nossal, P. M.) 407
Histaminase, inhibition by amidines (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
Histamine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Histamine stimulation, metabolic quotients of isolated frog gastric mucosa before (Crane, E. E. & Davies, R. E.) 169
Histidine monohydrochloride, effects of high-voltage cathode rays on aqueous solutions of (Bhatia, D. S. & Proctor, B. E.) 550
Homogentisic acid, formation in liver by the oxidation of tyrosine (Knox, W. E. & LeMay-Knox, M.) 686
Homogentisic acid, oxidation to acetoacetate in liver (Knox, W. E. & LeMay-Knox, M.) 686
Honorary membership of the Society, election of Sir Charles Martin to (Morgan, W. T. J.) xlix
Hormone, growth, in samples of blood and urine obtained during pregnancy or lactation (Cotes, P. M. & Young, F. G.) lix
Hormones, sex, effect on the distribution of vitamin A in castrated male rats (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Hormones, steroid, polarography of (Butt, W. R., Morris, P., Morris, C. J. O. R. & Williams, D. C.) 434
Horse-radish peroxidase, determination of sedimentation and diffusion constants of (Cecil, R. & Ogston, A. G.) 105
Horse-radish peroxidase, purification and comparison of properties with those of catalase and methaemoglobin (Keilin, D. & Hatree, E. F.) 88
Hyaluronic acid complex in synovial fluid, dimensions of the particle of (Ogston, A. G. & Stanier, J. E.) 585
Hydantoins, thio-, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Hydrazine and the enzymic formation of glutamine (Elliott, W. H.) 106
Hydrazine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Hydrochloric acid, energy for production in frog (Crane, E. E. & Davies, R. E.) 169
Hydrogen bonds in glutathione (Cecil, R.) 183
Hydrogen donators in nitrate reduction by rumen micro-organisms *in vitro* (Lewis, D.) 149
Hydrogen-exchange reactions catalysed by bacterial suspension, apparatus for following (Couper, A.) xxxii
Hydrogen peroxide, action of catalase and peroxidase of wheat germ on (Stern, R. & Bird, L. H.) 335
Hydrogen peroxide, alkaline, oxidation of wool by (Blackburn, S. & Lowther, A. G.) 554
Hydrogen peroxide compounds with peroxidase, spectra of (Keilin, D. & Hartree, E. F.) 88
p-Hydroxyazobenzene, metabolism in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) lxv
β-Hydroxybutyrate, phosphorus/oxygen ratios in oxidative phosphorylation (Judah, J. D.) 271
p-Hydroxydiphenyl reagent, use for determination of lactic acid in silage (Barnett, A. J. G.) 527
Hydroxylamine and the enzymic formation of glutamine (Elliott, W. H.) 106
Hydroxylamine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
p-Hydroxyphenylpyruvate, formation in liver by the oxidation of tyrosine (Knox, W. E. & LeMay-Knox, M.) 686
p-Hydroxyphenylpyruvate, oxidation to acetoacetate in liver (Knox, W. E. & LeMay-Knox, M.) 686
8-Hydroxyquinoline, inhibition of anaerobic fermentation by (Ryley, J. F.) 577
Hydroxytyramine in normal human urine (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Hypochlorite solutions, oxidation of wool with (Alexander, P., Fox, M. & Hudson, R. F.) 129

L-Iditol, oxidation by dehydrogenase of rat liver (Blakley, R. L.) 257
Iminazole *see* Glyoxaline
Infant, human, haemoglobins of (Beaven, G. H., Hoch, H. & Holiday, E. R.) 374
Inhibition of cholinesterase *in vitro* by *OO*-diethyl *O*-*p*-nitrophenyl thiophosphate (Diggle, W. M. & Gage, J. C. 491
Inhibition of enzymic impurities associated with potato phosphorylase (Bailey, J. M., Thomas, G. J. & Whelan, W. J.) lvi
Inhibition of oxidative phosphorylation, point of action of 2:4-dinitrophenol in (Terner, C.) ii
Inhibition of the succinic oxidase system by fluoride (Slater, E. C. & Bonner, W. D., jun.) 1 (*Proc.*)
Inhibitor, trypsin, from the pancreas (Green, N. M. & Work, E.) xxxvii
Inhibitors and turnover number of enzymes (Berry, W. K.) 615
Inorganic compounds, analysis by paper chromatography (Pollard, F. H., McOmie, J. F. W. & Stevens, H. M.) xxxi
Inorganic orthophosphate, replacement by 2:4-dinitrophenol (Judah, J. D.) 271
Insecticidal action of 1:1:1-trichloro-2:2-di-*p*-chlorophenylethane (DDT) (Skerrett, E. J., Stringer, A. & Woodcock, D.) xxviii
Insulin, action of chymotrypsin on (Phillips, D. M. P.) 506
Insulin, amino-acid sequence in the phenylalanyl chain of (Sanger, F. & Tuppy, H.) 463, 481
Insulin, degradation of (Stephen, J. M. L.) 629

Insulin, effect on composition of cells and growth of chick heart explants (Leslie, I. & Davidson, J. N.) xli
Insulin, *in vitro* stimulation of fat synthesis by lactating mammary gland slices by (Balmain, J. H. & Folley, S. J.) 663
Interface, air-water, fibrinogen monolayers at (Eley, D. D., Grant, R. A. & Taylor, K. B.) xxix
Interferometer suitable for electrophoresis (Burch, C. R. & Rogers, A. F.) xxxii
Intracellular potassium, exchange with extracellular potassium in liver, gut, kidney, heart and lung (D'Silva, J. L. & Neil, M. W.) 222
Inulin, effect of transfructosidation on (Edelman, J. & Bacon, J. S. D.) 529
Inulin, hydrolysis by enzyme of *Helianthus tuberosus* L. (Edelman, J. & Bacon, J. S. D.) 446
Iodine trichloride, reaction of vitamins D and related substances with (Green, J.) 36
Ion-exchange resins, synthetic, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 153
Ionophoresis, separation of nucleotides by (Smellie, R. M. S. & Davidson, J. N.) xv
Ionophoretic fractionation of a 'bound amino-acid' fraction of rye grass (Synge, R. L. M.) 642
Irisin 'B', hydrolysis by enzyme of *Helianthus tuberosus* L. (Edelman, J. & Bacon, J. S. D.) 446
Iron, co-ordination in haemoproteins (Keilin, D. & Hartree, E. F.) 88
Iron metabolism in the embryonated hen egg (Ramsay, W. N. M.) 494
Irradiation of ergosterol and 7-dehydrocholesterol (Green, J.) 232
Isoleucine in haemoglobin formation (Chandran, K. & Damodaran, M.) 393

Jelly, frog, examination of (James, S. P.) liv
Juglans regia, spectrophotometric determination of ascorbic acid in tissue extracts of (Daglish, C.) 635, 639

Kapeller-Adler reaction, chemical basis of (Beer, C. T., Dickens, F. & Salmony, D.) 700
Kephalin, enzymic breakdown of a constituent of, by brain homogenates (Sloane Stanley, G. H.) iv
Keratin-myosin group, end-group assay in some proteins in (Bailey, K.) 23
α-Keratin of wool, action of acidifying agents on (Blackburn, S. & Lowther, A. G.) 554
Keratin, wool, oxidation of (Blackburn, S. & Lowther, A. G.) 554
Keto acids, paper chromatography of (Altmann, S. M., Grook, E. M. & Datta, S. P.) lxiii
β-Ketoadipic acid, formation by bacterial fission of aromatic rings (Kilby, B. A.) 671
Ketogenesis, effects of sorbitol on (Blakley, R. L.) 257
α-Ketoglutarate, amination of and oxidation by formic dehydrogenase (Davison, D. C.) 520
α-Ketoglutarate, phosphorus/oxygen ratios in oxidative phosphorylation of (Judah, J. D.) 271
Kidney, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222
Kidney, lack of effect on turacin (Keilin, J.) 544
Kidney, pig, inhibition by amidines of histaminase of (Blaschko, H., Fastier, F. N. & Wajda, I.) 250
Kidney, rat, vitamin A in (Eden, E. & Moore, T.) 77
*Kinetics of chemical reactions *in vivo*, apparatus used for study of (Bray, H. G., Thorpe, W. V. & White, K.) lxii
Kinetics of ethereal sulphate formation from phenols *in vivo* (Bray, H. G. & White, K.) liii
Kinetics of pseudo-cholinesterase (Eley, D. D. & Stone, G. S.) xxx
Lactate as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Lactation, growth hormone in samples of blood and urine obtained during (Cotes, P. M. & Young, F. G.) lix
Lactic acid, formation by anaerobic fermentation of glucose by *Trypanosoma lewisi* (Ryley, J. F.) 577
Lactic acid, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
Lactic acid in silage, colorimetric determination of (Barnett, A. J. G.) 527
Lactic dehydrogenase in *Veillonella gazogenes* (Johns, A. T.) 559
Lactic dehydrogenase, inactivity in autolysing tissue (Dianzani, M. U.) 427
Lactobacillus arabinosus, acetoin formation from pyruvate in (Nossal, P. M.) xliv
Lactobacillus arabinosus, decarboxylation of malic acid by (Nossal, P. M.) 407
Lactobacillus casei, assay of 'strepogenin' activity of purified proteins with (Mistry, S. P. & Kodicek, E.) xviii
Lactobacillus casei, A. T. C. 7469, effect of amino-acids on the growth in pteroyl glutamic acid free media (Harry, E. G.) 5
Lactobacillus plantarum, metabolism of pyruvate by (Rowatt, E.) 453
Lactone formation by pythocholic acid (Haslewood, G. A. D. & Wootton, V. M.) 67
Lactose, determination by tetrazolium salt (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Lactose, synthesis from labelled acetate in bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Leaf, tea, polyphenols in, study by paper chromatography (Roberts, E. A. H. & Wood, D. J.) 414
Leuconostoc citrovorum factor and the synthesis of serine by micro-organisms (Lascelles, J., Cross, M. J. & Woods, D. D.) lxvi
Levan, hydrolysis by enzyme of *Helianthus tuberosus* L. (Edelman, J. & Bacon, J. S. D.) 446
'Lewis' (Le^a) human blood-group substance (Annison, E. F. & Morgan, W. T. J.) xxiv
Lewisite oxide as inhibitor of *iso*citric dehydrogenase (Lotspeich, W. D. & Peters, R. A.) 704
Light, effect on anthocyanin synthesis in cress (Eddy, B. P. & Mapson, L. W.) 694
Linolenate, oxidation by potassium permanganate in acetone solution (Heyes, J. K. & Shorland, F. B.) 503
Lipids, faecal, of guinea pigs and rabbits (Cook, R. P. & Thomson, R. O.) 72
Lipids, human faecal (Edwards, D. C. & Cook, R. P.) xli
Lipids of cell nuclei isolated from human brain cortex (Tyrrell, L. W. & Richter, D.) li
Lipids of rat in pyridoxine deficiency (Carter, C. W. & Phizackerley, P. J. R.) 227
Liquids, continuous extractor for (Dobson, F. & Randall, S. S.) 399
Liver cell fractions, uptake of radioactive phosphorus by ribonucleotides in (Davidson, J. N., McIndoe, W. N. & Smellie, R. M. S.) xxxvi
Liver, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222
Liver, fractionation of β-glucuronidase in (Walker, P. G. & Levvy, G. A.) 620
Liver glycogen, rabbit, amylolytic degradation of (Bell, D. J. & Manners, D. J.) lxxvii
Liver, incorporation of glycine into (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Liver lipids of rat in pyridoxine deficiency (Carter, C. W. & Phizackerley, P. J. R.) 227

Liver, occurrence of glycerylphosphorylethanolamine in extracts of (Campbell, P. N., Simmonds, D. H. & Work, T. S.) xvi
Liver of normal rat, metabolism of collagen from (Perrone, J. C. & Slack, H. G. B.) lxxii
Liver oils, fish, chemical determination of vitamin D in (Green, J.) 243
Liver, oxidation of tyrosine in (Knox, W. E. & LeMay-Knox, M.) 686
Liver phosphatase in rat (Goodlad, G. A. J., Mills, G. T. & Smith, E. E. B.) vi
Liver, phosphate fractions of (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Liver slices, rat, oxidation of D-sorbitol by (Blakley, R. L.) 257
Liver, urinary components in rats and human subjects with fibrosis of (Aterman, K. & Boscott, R. J.) lxxiv
Liver, vitamin A content of, in rats (Eden, E. & Moore, T.) 77
Locusta migratoria migratorioides R. &. F., effect of breeding temperature on the carotenoid content of (Goodwin, T. W.) 86
Locusta migratoria migratorioides R. & F., occurrence of a flavin in the eggs of and a pterin in the eyes of (Goodwin, T. W. & Srisukh, S.) 84
Locusts, biochemistry of (Goodwin, T. W. & Srisukh, S.) 84; (Goodwin, T. W.) 86
Lolium perenne L. (rye grass), non-protein nitrogen of (Synge, R. L. M.) 642
Lung, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222
Lupin seedlings, glutamine-forming system in (Elliott, W. H.) 106
Lysine, behaviour in some fibrous proteins (Bailey, K.) 23
Lysine, poly-, anticoagulant activity of (Vries, A. de, Schwager, A. & Katchalski, E.) 10

Magnesium, effect on the enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Malate as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
DL-Malate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Male rats, castrated, effect of sex hormones on the distribution of vitamin A in (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Maleate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Maleic anhydride, attempts at purification of vitamins D by condensation with (Green, J.) 54
Malic acid, decarboxylation by *Lactobacillus arabinosus* (Nossal, P. M.) 407
Malic acid, presence in pea seeds (Mapson, L. W. & Goddard, D. R.) 592
Malonate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Maltose, formation by the action of salivary α-amylase on amylose (Roberts, P. J. P. & Whelan, W. J.) lvi
Maltose, oligosaccharides synthesized by *Escherichia coli* from (Barker, S. A. & Bourne, E. J.) lxi
Maltotriose, formation by the action of salivary α-amylase on amylose (Roberts, P. J. P. & Whelan, W. J.) lvi
Mammalian bones, collagen content of (Rogers, H. J., Weidmann, S. M. & Parkinson, A.) xii
Mammary gland, effect of 2:4-dinitrophenol on glycolysis in (Terner, C.) lxxiii
Mammary gland slices, lactating, *in vitro* stimulation by insulin of fat synthesis by (Balmain, J. H. & Folley, S. J.) 663
Man, cholesterol metabolism in (Cook, R. P. & Edwards, D. C.) xli
Manganese and reduction of glutathione by pea seeds (Mapson, L. W. & Goddard, D. R.) 592
Manganese, effect on decarboxylation of malic acid by (Nossal, P. M.) 407
Manganese, effect on *iso*citric dehydrogenase preparations (Lotspeich, W. D. & Peters, R. A.) 704
Manganese, effect on the enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Mannitol as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Mannose, phosphorylation by tumour enzyme (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Manometric apparatus for experiments on tissue during electrical stimulation (McIlwain, H.) 382
Mares' urine, pregnant, some steroids of (Brooks, R. V., Klyne, W. & Miller, E.) xl
Marrow, bone, phosphorus metabolism in (Lutwak-Mann, C.) 300
Martin, Sir Charles, election to honorary membership of the Society (Morgan, W. T. J.) xlix
Matrix of bone, organic, polysaccharide associated with (Rogers, H. J.) xii
Medulla, adrenal, cytochrome system of (Tsou, C. L.) 658
Melezitose, effect of transfructosidation on (Edelman, J. & Bacon, J. S. D.) 529
Membranes of egg, iron in (Ramsay, W. N. M.) 494
Mercaptoglyoxalines, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Mercaptothiazoles, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Metabolic rate, basal, relation of thyroid activity to (Haigh, C. P., Reiss, J. M. & Reiss, M.) xxv
Metabolism of some benzoxazoles in the rabbit (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) xxiii
Methaemoglobin, comparison of properties with those of horse-radish peroxidase (Keilin, D. & Hartree, E. F.) 88
Methane, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
[^{14}C]-Methanol, synthesis of [^{14}C]-serine from (Arnstein, H. R. V.) 439
Methyl bis(2-chloroethyl)amine, inhibition of tumour hexokinase by (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Methylamines, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
5-Methylcytosine, absence in nucleic acids (Smith, J. D. & Wyatt, G. R.) 144
Microbiological assay of amino-acids in proteins (Folkes, B. F. & Yemm, E. W.) xxxi
Micro-filtration, apparatus for (Latner, A. L.) xxi
Micro-organisms, *Leuconostoc citrovorum* factor and the synthesis of serine by (Lascelles, J., Cross, M. J. & Woods, D. D.) lxvi
Micro-organisms of gut contents and faeces of chicks (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K., Porter, J. W. G., Cuthbertson, W. F. J. & Pegler, H. F.) lxvii
Micro-organisms, rumen, glucuronide-decomposing enzyme from (Karunairatnam, M. C. & Levvy, G. A.) 210
Micro-organisms, rumen, hydrogen donators in nitrate reduction *in vitro* by (Lewis, D.) 149
Methionine sulphoxide, effect on enzymic synthesis of glutamine by sheep-brain extract (Elliott, W. H.) 106
Migratory locust (*Locusta migratoria migratorioides* R. & F.), occurrence of a flavin in the eggs and a pterin in the eyes of (Goodwin, T. W. & Srisukh, S.) 84
Milk fat in the rabbit, a comparison between glucose and acetate as precursors of (French, T. H. & Popják, G.) iii

Milk fat, synthesis from acetic acid ($CH_3{}^{14}COOH$) (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Milk proteins in the rabbit, incorporation of blood amino-acids into (Campbell, P. N. & Work, T. S.) xlvi
Mineralization of bones and incisor teeth of rats on a high-sucrose diet (Hartles, R. L.) 574
Mitochondria, system from, oxidation of pyruvate by (Judah, J. D.) 271
Mohler reaction, chemical basis of (Beer, C. T., Dickens, F. & Salmony, D.) 700
Molybdate, catalytic effect on the hydrolysis of organic phosphate bonds (Weil-Malherbe, H. & Green, R. H.) 286
Monoamine oxidase, effect on oxygen uptake in autolysing tissue (Dianzani, M. U.) 427
Monolayers, fibrinogen, at the air-water interface (Eley, D. D., Grant, R. A. & Taylor, K. B.) xxix
Mosaic virus, turnip yellow, nucleic acids of (Markham, R. & Smith, J. D.) 401
Moulds, lack of effect on turacin (Keilin, J.) 544
Moulds, sucrose breakdown by enzyme preparations from (Bealing, F. J. & Bacon, J. S. D.) lxxv
Muconic acid in benzene urine (Parke, D. V. & Williams, R. T.) lii
Mucopolysaccharides, abnormal, in vitamin C-deficient skin wounds (Bradfield, J. R. G. & Kodicek, E.) xvii
Mucosa, frog gastric, metabolic quotients of (Crane, E. E. & Davies, R. E.) 169
Muscle, extra- and intra-cellular potassium of (D'Silva, J. L. & Neil, M. W.) 222
Muscle extract, inhibition of glycolysis by glyceraldehyde in (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Muscle extracts, activator of hexokinase in (Weil-Malherbe, H. & Bone, A. D.) 355
Muscle, frog, uptake and loss of phosphate by (Causey, G. & Harris, E. J.) 176
Muscle, heart, activation of the succinic oxidase system of (Bonner, W. D., jun.) viii
Muscle, heart, haem of (Lemberg, R. & Falk, J. E.) 674
Muscle, incorporation of glycine into (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Muscle, surviving, effect of carbon monoxide on the level of energy-rich phosphate in (Lawrie, R. A.) lxvii
Mustard gas, effect on phosphorus compounds of bone marrow (Lutwak-Mann, C.) 300
Mustard sulphoxide, effect on phosphorus compounds of bone marrow (Lutwak-Mann, C.) 300
Mutase, aldehyde, and the dismutation of formaldehyde (Kendal, L. P. & Ramanathan, A. N.) lvii
Mycobacterium tuberculosis, isolation of deoxypentose nucleic acids from strains of (Smith, J. D. & Wyatt, G. R.) 144
Mycobacterium tuberculosis, isolation of αε-diaminopimelic acid from (Work, E.) 17
Myokinase of brain extracts (Weil-Malherbe, H. & Bone, A. D.) 339
Myosin-keratin group, end-group assay in some proteins of (Bailey, K.) 23

Nalgiolaxin *see dextro*-1(or 8)-Chloro-4:5-dihydroxy-7-methoxy-2-hydroxypropylanthroquinone
Nalgiovensin *see dextro*-4:5-Dihydroxy-7-methoxy-2-hydroxypropylanthraquinone
*peri*Naphthindanetrione hydrate, spectrophotometric assay of ascorbic acid in pure solutions with (El Ridi, M. S., Moubasher, R. & Hassan, Z. F.) 246
1- and 2-Naphthol, isolation of 1- and 2-naphthylsulphuric acid and 1- and 2-naphthylglucuronide from the urine of rats dosed with (Berenbom, M. & Young, L.) 165
1- and 2-Naphthylglucuronide, isolation from the urine of rats dosed with 1- and 2-naphthol (Berenbom, M. & Young, L.) 165
1- and 2-Naphthylsulphuric acid, isolation from the urine of rats dosed with 1- and 2-naphthol (Berenbom, M. & Young, L.) 165
Ninhydrin, colour reaction with amines (Bremner, J. M. & Kenten, R. H.) 651
Nitrate, metabolism in the sheep (Lewis, D.) 149
Nitration of benzoic and phenylacetic acids and phenylalanine (Beer, C. T., Dickens, F. & Salmony, D.) 700
Nitrogen, assimilation by barley roots (Yemm, E. W.) xxvi
Nitrogen, excretion by rats after feeding a zinc diet (Sadasivan, V.) 186
Nitrogen metabolism in *Phycomyces blakesleeanus* (Goodwin, T. W., Lijinsky, W. & Willmer, J. S.) liii
Nitrogen, non-protein, utilization in the bovine rumen (McNaught, M. L.) 325
Noradrenaline, partition chromatography of (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Nuclei, cell, from human brain cortex, lipids of (Tyrrell, L. W. & Richter, D.) li
Nucleic acid of egg white (Fraenkel-Conrat, H. & Ducay, E. D.) xxxix
Nucleic acid phosphorus of rat and rabbit bone marrow (Lutwak-Mann, C.) 300
Nucleic acid, chromatography of (Markham, R. & Smith, J. D.) 401
Nucleic acids, deoxypentose, composition of (Smith, J. D. & Wyatt, G. R.) 144
Nucleic acids, deoxypentose, non-diffusible 'cores' prepared from (Laland, S.) lxi
Nucleic acids, specific activities of phosphate fractions of liver containing (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Nucleotide composition of nucleic acids from different micro-organisms (Smith, J. D. & Wyatt, G. R.) 144
Nucleotides, separation by ionophoresis (Smellie, R. M. S. & Davidson, J. N.) xv
Nutrition of the dried-fruit beetle (*Carpophilus hemipterus*) (Stride, G. O.) xxvi

Oestradiol, fluorescent compounds of (Braunsberg, H.) xi
Oestradiol phosphates, inhibition of alkaline phosphatase by (Aldman, B., Diczfalusy, E., Högberg, B. & Rosenberg, T.) 218
Oestriol, fluorescent compounds of (Braunsberg, H.) xi
Oestrone, fluorescent compounds of (Braunsberg, H.) xi
Oils, fish-liver, chemical determination of vitamin D in (Green, J.) 243
Oligosaccharides synthesized by *Escherichia coli* from maltose (Barker, S. A. & Bourne, E. J.) lxi
Ornithine, poly-, anticoagulant activity of (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Osmotic pressure, studies in tropomyosin (Tsao, T.-C., Bailey, K. & Adair, G. S.) 27
Ovomucoid, amino groups of (Fraenkel-Conrat, H.) lxxviii
Oxidase, amine in cephalopods (Blaschko, H. & Hawkins, J.) xliv
Oxidase system, succinic, inhibition by fluoride (Slater, E. C. & Bonner, jun., W. D.) 1 (*Proc.*)
Oxidation and phosphorylation, action of 2:4-dinitrophenol on (Judah, J. D.) 271
Oxidation, coupled, of pyruvate with glutathione and cysteine (Cavallini, D.) 1
Oxidation of aromatic compounds by soil bacteria (Evans, W. C. & Smith, B. S. W.) x
Oxidation of D-sorbitol by rat-liver slices (Blakley, R. L.) 257
Oxidation of wool keratin (Blackburn, S. & Lowther, A. G.) 554

Oxidation of wool with solutions of potassium permanganate and sodium hypochlorite (Alexander, P., Fox, M. & Hudson, R. F.) 129
Oxidative phosphorylation, point of action of 2:4-dinitrophenol in the inhibition of (Terner, C.) ii
Oxidizing agents, reaction with wool (Alexander, P., Fox, M. & Hudson, R. F.) 129

Pancreas, ribonuclease in (Martin, A. J. P. & Porter, R. R.) 215
Pancreas, trypsin inhibitor from (Green, N. M. & Work, E.) xxxvii
Pancreatin, action on degradation products of insulin (Stephen, J. M. L.) 629
Papain, action on degradation products of insulin (Stephen, J. M. L.) 629
Papain, digestion of cytochrome *c* by (Tsou, C. L.) 362
Paper chromatography, analysis of inorganic compounds by (Pollard, F. H., McOmie, J. F. W. & Stevens, H. M.) xxxi
Paper chromatography, horizontal (Meredith, P. & Sammons, H. G.) lxii
Paper chromatography of keto acids (Altmann, S. M., Crook, E. M. & Datta, S. P.) lxiii
Paper chromatography of phosphate esters (Walker, D. G. & Warren, F. L.) xxi
Paper chromatography of urinary acids and phenols (Boscott, R. J.) lxxiv
Paper, filter, electrophoresis of enzymes on (Mills, G. T. & Smith, E. E. B.) vi
Paraperoxidase as transformation product of peroxidase (Keilin, D. & Hartree, E. F.) 88
Parathion, E 605, cholinesterase inhibition *in vitro* by (Diggle, W. M. & Gage, J. C.) 491
Partition chromatography of adrenaline and related compounds (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Parturition, variations in the serum β-carotene and vitamin A levels of cows near (Goodwin, T. W. & Wilson, A. A.) 499
Pasteur effect in bull spermatozoa, influence of 2:4-dinitrophenol on (Melrose, D. R. & Terner, C.) i
Pea, seeds of, reduction of glutathione by (Mapson, L.W. & Goddard, D. R.) 592
Peanut plants (*Arachis hypogaea*), a third amino-acid amide in (Done, J. & Fowden, L.) xx
Penicillins, use of fraction collector and conductivity recorder in separation of (James, A. T., Martin, A. J. P. & Randall, S. S.) 293
Penicillium nalgiovensis Laxa, colouring matters, nalgiovensin and nalgioloxin and substances A, B and C from (Raistrick, H. & Ziffer, J.) 563
Penicillium notatum, lack of effect on turacin (Keilin, J.) 544
*Pentose sugars, synthesis of (Hough, L. & Jones, J. K. N.) xxxi
Pentoses and nitrogen compounds of bovine rumen contents (McNaught, M. L.) 325
Pepsin, action on degradation products of insulin (Stephen, J. M. L.) 629
Pepsin, digestion of cytochrome *c* by (Tsou, C. L.) 362
Pepsin, hydrolysis of a fraction of oxidized insulin by (Sanger, F. & Tuppy, H.) 481
Pepsin-modified cytochrome *c*, properties of (Tsou, C. L. 367
Peptide bonds, stability in acid and alkaline media (Bailey, K.) 23
Peptide chain in wool, formation of a sulphonamide in (Alexander, P., Fox, M. & Hudson, R. F.) 129
Peptide chains of wool action of acidifying agents on (Blackburn, S. & Lowther, A. G.) 554
Peptides, by degradation of insulin (Stephen, J. M. L.) 629
Peptides from enzymic hydrolysates, investigation of (Sanger, F. & Tuppy, H.) 481
Peptides, identification from partial hydrolysates (Sanger, F. & Tuppy, H.) 463
Peptides of rye grass (Synge, R. L. M.) 642
Peracetic acid, oxidation of wool with acid solutions of (Alexander, P., Fox, M. & Hudson, R. F.) 129
Performic acid, oxidation of insulin derivatives by (Stephen, J. M. L.) 629
Performic acid, oxidation of the cystine of wool by treatment with (Blackburn, S. & Lowther, A. G.) 554
Perfusion techniques applied to milk formation in bovine udder (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Permanganate solutions, oxidation of wool with (Alexander, P., Fox, M. & Hudson, R. F.) 129
Permeability, anion, of horse erythrocytes, action of acid phosphate on (Holton, F. A.) xix
Peroxidase, horse-radish, determination of sedimentation and diffusion constants of (Cecil, R. & Ogston, A. G.) 105
Peroxidase, horse-radish, purification and comparison of its properties with those of catalase and methaemoglobin (Keilin, D. & Hartree, E. F.) 88
Peroxidase of wheat germ, action on hydrogen peroxide (Stern, R. & Bird, L. H.) 335
Peroxidase, suppression of catalase activity by (Stern, R. & Bird, L. H.) 335
Phenarsazines as inhibitors of *iso*citric dehydrogenase (Lotspeich, W. D. & Peters, R. A.) 704
Phenols, kinetics of ethereal sulphate formation from *in vivo* (Bray, H. G. & White, K.) liii
Phenols, poly-, in tea leaf, separation by paper chromatography with water as a mobile solvent (Roberts, E. A. H. & Wood, D. J.) xxxiii
Phenols, urinary, paper chromatography of (Boscott, R. J.) lxxiv
Phenylacetic acid, conjugated, excretion in phenylketonuria (Woolf, L. I.) ix
Phenylacetic acid, nitration of (Beer, C. T., Dickens, F. & Salmony, D.) 700
Phenylalanine in insulin (Phillips, D. M. P.) 506
Phenylalanine, nitration of (Beer, C. T., Dickens, F. & Salmony, D.) 700
Phenylalanyl chain of insulin, amino-acid sequence in (Sanger, F. & Tuppy, H.) 463, 481
p-Phenylenediamine, catalytic oxidation by adrenal medulla preparations (Tsou, C. L.) 658
Phenylhydrazine, behaviour of animals treated with, effect of isoleucine on (Chandran, K. & Damodaran, M.) 393
Phenylketonuria, excretion of conjugated phenylacetic acid in (Woolf, L. I.) ix
Phosphatase, alkaline, inhibition by oestradiol phosphates (Aldman, B., Diczfalusy, E., Högberg, B. & Rosenberg, T.) 218
Phosphatase, rat-liver (Goodlad, G. A. J., Mills, G. T. & Smith, E. E. B.) vi
Phosphate, absorption from the rumen of sheep (Scarisbrick, R. & Ewer, T. K.) lxxiv
Phosphate, acid, action on the anion permeability of horse erythrocytes (Holton, F. A.) xix
Phosphate bonds, organic, catalytic effect of molybdate on the hydrolysis of (Weil-Malherbe, H. & Green, R. H.) 286
Phosphate, diethyl *p*-nitrophenyl, enzymic hydrolysis of (Aldridge, W. N.) i
Phosphate, effect on pyruvate metabolism of *Lactobacillus plantarum* (Rowatt, E.) 453
Phosphate, energy-rich, effect of carbon monoxide on the level in surviving muscle (Lawrie, R. A.) lxvii

Phosphate esters, filter-paper chromatography of (Walker, D. G. & Warren, F. L.) xxi
Phosphate fractions, specific activities of, in liver (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Phosphate groups, labile, of adenosinetriphosphate, reactivity of (Krebs, H. A., Johnson, M., Eggleston, L. V. & Hems, R.) xxxv
Phosphate, inorganic, liberation during enzymic formation of glutamine (Elliott, W. H.) 106
Phosphate, uptake and loss by frog muscle (Causey, G. & Harris, E. J.) 176
Phosphates, oestradiol, inhibition of alkaline phosphatase by (Aldman, B., Diczfalusy, E., Högberg, B. & Rosenberg, T.) 218
Phosphates, stimulation of (McIlwain, H. & Gore, M. B. R.) xliii
Phosphohexokinase, Michaelis constant of (Weil-Malherbe, H. & Bone, A. D.) 339
Phosphohexokinase of rabbit-muscle extracts (Weil-Malherbe, H. & Bone, A. D.) 355
Phospholipin of rat liver in pyridoxine deficiency (Carter, C. W. Phizackerley, P. J. R.) 227
Phosphoprotein phosphorus, specific activity of, in tissues after administration of radioactive phosphorus (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Phosphorus compounds in the cell (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Phosphorus, excretion by rats following a zinc diet (Sadasivan, V.) 186
Phosphorus metabolism in bone marrow (Lutwak-Mann, C.) 300
Phosphorus/oxygen ratios in oxidative phosphorylation (Judah, J. D.) 271
Phosphorus, radioactive, uptake by ribonucleotides in liver cell fractions (Davidson, J. N., McIndoe, W. M. & Smellie, R. M. S.) xxxvi
Phosphorus, ratio to calcium in rat femur and incisor teeth, effect of high-sucrose diet on (Hartles, R. L.) 574
Phosphorylase, potato, inhibition of enzymic impurities associated with (Bailey, J. M., Thomas, G. J. & Whelan, W. J.) lvi
Phosphorylation of fructose, effect of brain extracts on (Weil-Malherbe, H. & Bone, A. D.) 348
Phosphorylation of glucose by adenosinetriphosphate, reactions occurring in aqueous rat-brain extracts during (Weil-Malherbe, H. & Bone, A. D.) 339
Phosphorylation of sugar by tumour hexokinase (Boyland, E., Goss, G. C. L. & Williams-Ashman, G.) 321
Phosphorylation, oxidative, action of 2:4-dinitrophenol on (Judah, J. D.) 271
Phosphorylation, oxidative, point of action of 2:4-dinitrophenol in the inhibition of (Terner, C.) ii
Photometer, flame, estimation of sodium and potassium (McGowan, G. K. & Smart, J.) xxxi
Phthalate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Phycomyces blakesleeanus, carotenoids of (Goodwin, T. W.) xxiii
Phycomyces blakesleeanus, nitrogen metabolism and carotenogenesis in (Goodwin, T. W., Lijinsky, W. & Willmer, J. S.) liii
Plasma, blood, spectrophotometric assay of ascorbic acid in, with *peri*naphthindanetrione hydrate (El Ridi, M. S., Moubasher, R. & Hassan, Z. F.) 246
Plasmin, investigation of the part played in the fibrinolytic activity produced by exercise (Bidwell, E. & Macfarlane, R. G.) xlii
Polarography, application in a study of cystinuria (Harris, H. & Warren, F. L.) xxii
Polarography of steroid hormones (Butt, W. R., Morris, P., Morris, C. J. O. R. & Williams, D. C.) 434
Poly-α-amino-acids, water-soluble, action on blood clotting (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Polymers of hyaluronic acid (Ogston, A. G. & Stanier, J. E.) 585
Polyphenols in tea leaf, separation by paper chromatography with water as a mobile solvent (Roberts, E. A. H. & Wood, D. J.) xxxiii
Polyphenols in tea leaf, study by paper chromatography (Roberts, E. A. H. & Wood, D. J.) 414
Polysaccharide associated with the organic matrix of bone (Rogers, H. J.) xii
Polysaccharide, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
Polysaccharide isolated from *Corynebacterium diphtheriae* (Holdsworth, E. S.) xiv
Polysaccharides, effect of transfructosidation on (Edelman, J. & Bacon, J. S. D.) 529
Porphobilinogen, further studies on (Brockman, P. E. & Gray, C. H.) lxxi
Porphyrin *a*, spectrographic comparison with known compounds (Lemberg, R. & Falk, J. E.) 674
Porphyrin derivatives, spectrographic properties and constitution of (Lemberg, R. & Falk, J. E.) 674
Porphyrins, copper-, turacin and the supposed catalytic activity of (Keilin, J.) 544
Porphyrins, isolation of unequivocal uroporphyrin III (Nicholas, R. E. H. & Rimington, C.) xxxiii
Porphyrins, micro-estimation by copper titration (Oliver, I. T. & Rawlinson, W. A.) 157
Potassium chloride, radioactive, administered intraperitoneally or intravenously to rats, fate of (D'Silva, J. L. & Neil, M. W.) 222
Potassium, effect on respiration and glycolysis in sections of cerebral cortex (McIlwain, H. & Gore, M. B. R.) xliii
Potassium, exchange between extra- and intra-cellular (D'Silva, J. L. & Neil, M. W.) 222
Potassium, flame photometer estimation of (McGovan, G. K. & Smart, J.) xxxi
Potato phosphorylase, inhibition of enzymic impurities associated with (Bailey, J. M., Thomas, G. J. & Whelan, W. J.) lvi
'Precollagen' in vitamin C-deficient skin wounds (Bradfield, J. R. G. & Kodicek, E.) xvii
Pregnancy, growth hormone in samples of blood and urine obtained during (Cotes, P. M. & Young, F. G.) lix
Pregnancy urine, human, *allo*pregnane-3α:20α-diol in (Kyle, T. I. & Marrian, G. F.) 80
*allo*Pregnane-3α:20α-diol in the urine of pregnant women (Kyle, T. I. & Marrian, G. F.) 80
Pregnane-3α:20α-diol, proportion to *allo*pregnane-3α:20α-diol after administration of progesterone (Kyle, T. I. & Marrian, G. F.) 162
Pregnane-3α:20α-diol, ratio to *allo*pregnane-3α:20α-diol in pregnancy urine (Kyle, T. I. & Marrian, G. F.) 80
*allo*Pregnanediols from pregnant mares' urine (Brooks, R. V., Klyne, W. & Miller, E.) xl
Pregnant mares' urine, steroids of (Brooks, R. V., Klyne, W. & Miller, E.) xl
Progesterone, determination in blood (Butt, W. R., Morris, P., Morris, C. J. O. R. & Williams, D. C.) 434
Progesterone, metabolic reduction to *allo*pregnane-3α:20α-diol in human subjects (Kyle, T. I. & Marrian, G. F. 162
Protamine, action on blood coagulation and heparin (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Protein absorption by rats in pyridoxine deficiency (Carter, C. W. & Phizackerley, P. J. R.) 227
Protein, apparent, in human urine, some surface film measurements (Tárnoky, A. L.) 205

Protein-bound phosphorus fractions, study with the aid of radioactive phosphorus (Davidson, J. N., Frazer, S. C. & Hutchison, W. C.) 311
Protein, formation from maltose in bovine rumen contents (McNaught, M. L.) 325
Protein formation in bovine rumen contents during *in vitro* incubation (McNaught, M. L.) 325
Proteins, cytoplasmic and chloroplastic, of barley (Yemm, E. W.) xxvi
Proteins, fibrous, action of organic acids on (Blackburn, S. & Lowther, A. G.) 554
Proteins in haemoglobin formation (Chandran, K. & Damodaran, M.) 393
Proteins, microbiological assay of amino-acids in (Yemm, E. W.) xxxi
Proteins, milk, in the rabbit, incorporation of blood amino-acids in (Campbell, P. N. & Work, T. S.) xlvi
Proteins of keratin-myosin group, end-group assay in (Bailey, K.) 23
Proteins of rat, incorporation of glycine into (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Proteins of serum, acid-soluble, investigations on (Waldron, D. M.) lviii
Proteins, purified, assay of 'strepogenin' activity of with *Lactobacillus casei* (Mistry, S. P. & Kodicek, E.) xviii
Proteolytic enzymes, cytochrome *c* modified by digestion with (Tsou, C. L.) 362, 367
Protoanemonin, glucoside of *Ranunculus* sp. (Hill, R. & van Heyningen, R.) 332
Protoporphyrin, estimation by copper titration (Oliver, I. T. & Rawlinson, W. A.) 157
Protozoa, metabolism of (Ryley, J. F.) 577
Pseudo-cholinesterase, kinetics of (Eley, D. D. & Stone, G. S.) xxx
Pseudomonad, metabolism of creatine by (Appleyard, G.) lxx
Pterin, occurrence in the eyes of the African migratory locust (*Locusta migratoria migratorioides* R. & F.) and the desert locust (*Schistocerca gregaria* Forsk.) (Goodwin, T. W. & Srisukh, S.) 84
Pteroylglutamic acid-free media, effect of amino-acids on the growth of *Lactobacillus casei* A.T.C. 7469 in (Harry, E. G.) 5
Putrescine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Pyridine nucleotides and action of 2:4-dinitrophenol (Judah, J. D.) 271
Pyridoxal phosphate, as coenzyme of transamination reaction involving tyrosine (Knox, W. E. & LeMay-Knox, M.) 686
Pyridoxine, influence on fat metabolism in the rat (Carter, C. W. & Phizackerley, P. J. R.) 227
Pyrophosphate, protection of succinic dehydrogenase from inhibition by (Tsou, C. L.) 512
Pyruvate, acetoin formation from in *Lactobacillus arabinosus* (Nossal, P. M.) xliv
Pyruvate, coupled oxidation with glutathione and cysteine (Cavallini, D.) 1
Pyruvate, effect on decarboxylation of malic acid by (Nossal, P. M.) 407
Pyruvate, metabolism by *Lactobacillus plantarum* (Rowatt, E.) 453
Pyruvate, oxidation by mitochondria (Judah, J. D.) 271
Pyruvate, phosphorus/oxygen ratios in oxidative phosphorylation (Judah, J. D.) 271
Pythocholic acid, comparative study of (Haslewood, G. A. D. & Wootton, V. M.) 67
Pythocholic acid, structure of (Haslewood, G. A. D.) 718
Python, bile acids of (Haslewood, G. A. D. & Wootton, V. M.) 67
Rabbit, cholesterol metabolism in (Cook, R. P. & Thomson, R. O.) 72
Rabbit fat, perinephric and interscapular, component fatty acids of (Clément, G. & Meara, M. L.) 561
Rabbit, incorporation of blood amino-acids into milk proteins in (Campbell, P. N. & Work, T. S.) xlvi
Rabbit-liver glycogen, amylolytic degradation of (Bell, D. J. & Manners, D. J.) lxxvii
Rabbit, metabolism of anisole and diphenyl ether in (Bray, H. G., Thorpe, W. V. & Wasdell, M. R.) liv
Rabbit, metabolism of azobenzene and *p*-hydroxybenzene in (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) lxv
Rabbit, metabolism of some benzoxazoles in (Bray, H. G., Clowes, R. C. & Thorpe, W. V.) xxiii
Rabbit, metabolism of 2:3:5:6-tetrachloronitrobenzene and 2:3:4:5-tetrachloronitrobenzene in (Bray, H. G., Hybs, Z., Lake, H. J. & Thorpe, W. V.) lxv
Radioactive compounds, deposition in extracellular spaces (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Radioactive phosphorus, study of protein-bound phosphorus fractions with the aid of (Davidson, J. N., Frazer, S. C. & Hutchinson, W. C.) 311
Raffinose, effect of transfructosidation on (Edelman, J. & Bacon, J. S. D.) 529
Ranunculin, precursor of the vesicant substance of the buttercup (Hill, R. & van Heyningen, R.) 332
Rape leaf, constitution of hexadecatrienoic acid from glycerides of (Heyes, J. K. & Shorland, F. B.) 503
*Rat, apparatus for the estimation of water and electrolyte exchange in (Cole, D. F. & Tranter, S. J.) lxii
Rat, biosynthesis of globin in (Muir, H. M., Neuberger, A. & Perrone, J. C.) lv
Rat brain, glutamic acid content in relation to thiopentone anaesthesia (Dawson, R. M. C.) 138
Rat, composition of bones and teeth of (Hartles, R. L.) 574
Rat, influence of pyridoxine on fat metabolism in (Carter, C. W. & Phizackerley, P. J. R.) 227
Rat, metabolism of collagen in (Neuberger, A., Perrone, J. C. & Slack, H. G. B.) 199
Rat, metabolism of collagen from skin, bone and liver in (Perrone, J. C. & Slack, H. G. B.) lxxii
Rat, metabolism of serine by (Arnstein, H. R. V.) 439
Rat tissues, hexokinase activities of (Long, C.) xxxiv
Rat, vitamin A in the kidney of (Eden, E. & Moore, T.) 77
Rats, castrated male, effect of sex hormones on the distribution of vitamin A in (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Rats, fate of radioactive potassium chloride administered intraperitoneally or intravenously to (D'Silva, J. L. & Neil, M. W.) 222
Rats maintained on a stock diet, effect of intake of zinc on the metabolism of (Sadasivan, V.) 186
Rats, male and female, at different levels of dosing, distribution of vitamin A in (Moore, T., Sharman, I. M. & Ward, R. J.) xxxix
Rats with fibrosis of the liver, urinary components in (Aterman, K. & Boscott, R. J.) lxxiv
Rays, high-voltage cathode, effects on aqueous solutions of histidine monohydrochloride (Bhatia, D. S. & Proctor, B. E.) 550
Reducing sugars, direct colorimetric estimation with tetrazolium salts (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Reduction, metabolic, of progesterone to *allo*pregnane-3α:20α-diol in human subjects (Kyle, T. I. & Marrian, G. F.) 162
Resins, synthetic ion-exchange, displacement chromatography on (Partridge, S. M. & Brimley, R. C.) 153
Respiration of tissues during aseptic autolysis, enzymes responsible for (Dianzani, M. U.) 427

Respiration of *Trypanosoma lewisi*, effect of the cytochrome system on (Ryley, J. F.) 577
Respiration, stimulation in sections of cerebral cortex, effect on phosphates (McIlwain, H. & Gore, M. B. R.) xliii
Respiratory quotient of lactating mammary gland slices (Balmain, J. H. & Folley, S. J.) 663
Ribonuclease, chromatographic fractionation of (Martin, A. J. P. & Porter, R. R.) 215
Ribonucleic/deoxyribonucleic acid ratio of rat and rabbit bone marrow (Lutwak-Mann, C.) 300
Ribonucleotides in liver cell fractions, uptake of radioactive phosphorus by (Davidson, J. N., McIndoe, W. M. & Smellie, R. M. S.) xxxvi
Roots, barley, assimilation of nitrogen by (Yemm, E. W.) xxxi
Roots, barley, synthesis of amino-acids in (Willis, A. J.) xxvii
Rumen, bovine, utilization of non-protein nitrogen in (McNaught, M. L.) 325
Rumen epithelium, sheep, metabolism of lower fatty acids by (Pennington, R. J.) lix
Rumen micro-organisms, glucuronide-decomposing enzyme from (Karunairatnam, M. C. & Levvy, G. A.) 210
Rumen micro-organisms, hydrogen donators in nitrate reduction *in vitro* by (Lewis, D.) 149
Rumen, sheep, absorption of inorganic phosphate from (Scarisbrick, R. & Ewer, T. K.) lxxix
Rye grass, non-protein nitrogen of (Synge, R. L. M.) 642

Salivary α-amylase, end products of the action on amylose (Roberts, P. J. P. & Whelan, W. J.) lvi
Schistocerca gregaria Forsk., effect of breeding temperature on the carotenoid content of (Goodwin, T. W.) 86
Schistocerca gregaria Forsk., occurrence of a flavin in the eggs of and a pterin in the eyes of (Goodwin, T. W. & Srisukh, S.) 84
*Schultz reaction for cholesterol and cholesterol esters in the rat suprarenal (Ashford, C. A., Robinson, F. B. & Yoffey, J. M.) xxxii
Sedimentation constants of horse-radish peroxidase, determination of (Cecil, R. & Ogston, A. G.) 105
Serine, *Leuconostoc citrovorum* factor and the synthesis by micro-organisms (Lascelles, J., Gross, M. J. & Woods, D. D.) lxvi
Serine, metabolism in the rat (Arnstein, H. R. V.) 439
[β-^{14}C]-Serine, synthesis from [^{14}C]-methanol (Arnstein, H. R. V.) 439
Serum β-carotene levels, variation in cows near parturition (Goodwin, T. W. & Wilson, A. A.) 499
Serum proteins, acid-soluble, investigations on (Waldron, D. M.) lviii
Sex hormones, effect on the distribution of vitamin A in castrated male rats (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Sheep, absorption of inorganic phosphate from the rumen of (Scarisbrick, R. & Ewer, T. K.) lxxix
Sheep, pregnant, iron metabolism of uterus of (Ramsay, W. N. M.) 494
Sheep rumen epithelium, metabolism of lower fatty acids by (Pennington, R. J.) lix
Silage, colorimetric determination of lactic acid in (Barnett, A. J. G.) 527
Silver nitrate, reaction with glutathione and urea (Cecil, R.) 183
Skin of normal rat, metabolism of collagen from (Perrone, J. C. & Slack, H. G. B.) lxxii
Skin wounds, vitamin C-deficient, abnormal mucopolysaccharides and 'precollagen' in (Bradfield, J. R. G. & Kodicek, E.) xvii
Sodium, flame photometer estimation of (McGowan, G. K. & Smart, J.) xxxi
Soil bacteria, oxidation of aromatic compounds by (Evans, W. C. & Smith, B. S. W.) x
'Solubilizing' action of surface-active agents on enzymes (Ord, M. G. & Thompson, R. H. S.) 191
Solvents, organic, resistance of acetylcholine esterase in dry preparations to (Bullock, K.) vii
Sorbitol, metabolism and antiketogenic effects of (Blakley, R. L.) 257
Spectrophotometric determination of ascorbic acid in tissue extracts (Daglish, C.) 635
Spectrophotometric methods, application to determination of ascorbic acid (Daglish, C.) 639
Spectroscopic examination of adult and foetal haemoglobins (Beaven, G. H., Hoch, H. & Holiday, E. R.) 374
Spermatozoa, bull, influence of 2:4-dinitrophenol on the Pasteur effect in (Melrose, D. R. & Terner, C.) i
Spermine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
*Sprue syndrome, experimental studies on (Frazer, A. C., French, J. M. & Sammons, H. G.) lxiii
Staphylococcus aureus, pyruvate metabolism of (Rowatt, E.) 453
Steroid benzoates, chromatography of (Brooks, R. V., Klyne, W. & Miller, E.) lxxii
Steroid hormones, polarography of (Butt, W. R., Morris, P., Morris, C. J. O. R. & Williams, D. C.) 434
Steroids of pregnant mares' urine (Brooks, R. V., Klyne, W. & Miller, E.) xl
Sterols in faeces of guinea pigs and rabbits (Cook, R. P. & Thomson, R. O.) 72
Sterols, irradiated, reaction with iodine trichloride (Green, J.) 36
Sterols of rat liver in pyridoxine deficiency (Carter, C. W. & Phizackerley, P. J. R.) 227
Sterols, separation from vitamins D (Green, J.) 45
Stilbamidine, inhibition of histaminase by (Blaschko, H., Fastier, F. N. & Wajda, J.) 250
Stomach, chemical and electrical energy relations for (Crane, E. E. & Davies, R. E.) 169
'Strepogenin' activity of purified proteins, assay with *Lactobacillus casei* (Mistry, S. P. & Kodicek, E.) xviii
Succinate as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 149
Succinate, inhibition of pyruvate metabolism of *Lactobacillus plantarum* by (Rowatt, E.) 453
Succinate, protection of succinic dehydrogenase from inactivation (Tsou, C. L.) 512
Succinic acid containing deuterium in the methylene groups, enzymic oxidation of (Thorn, M. B.) 602
Succinic acid, formation by anaerobic fermentation of glucose by *Trypanosoma lewisi* (Ryley, J. F.) 577
Succinic acid, formation from β-ketoadipic acid by vibrio 01 (Kilby, B. A.) 671
Succinic dehydrogenase, bacterial and cytochrome *b* (Johns, A. T.) 559
Succinic dehydrogenase, cyanide inactivation of (Tsou, C. L.) 512
Succinic dehydrogenase in *Veillonella gazogenes* (Johns, A. T.) 559
Succinic dehydrogenase, relation to cytochrome *b* (Tsou, C. L.) 512
Succinic oxidase, affinity for normal succinic acid (Thorn, M. B.) 602
Succinic oxidase, inactivity of pigments obtained from cytochrome *c* by proteolytic enzymes (Tsou, C. L.) 362
Succinic oxidase system, action of pepsin-modified cytochrome *c* on (Tsou, C. L.) 367
Succinic oxidase system, inhibition by fluoride (Slater, E. C. & Bonner, W. D., jun.) l (*Proc.*)
Succinic oxidase system of heart muscle, activation of (Bonner, W. D., jun.) viii

Succinoxidase, inactivity in autolysing tissue (Dianzani, M. U.) 427
Sucrose breakdown by enzyme preparations from moulds (Bealing, F. J. & Bacon, J. S. D.) lxxv
Sucrose, effect of diet with high content of, on the calcium : phosphorus ratio of rat femora (Hartles, R. L.) 574
Sucrose, effect of transfructosidation on (Edelman, J. & Bacon, J. S. D.) 529
Sucrose, hydrolysis by enzyme of *Helianthus tuberosus* L. (Edelman, J. & Bacon, J. S. D.) 446
Sugars, effect on anthocyanin synthesis in cress (Eddy, B. P. & Mapson, L. W.) 694
*Sugars, pentose, synthesis of (Hough, L. & Jones, J. K. N.) xxxi
Sugars, reducing, direct colorimetric estimation with tetrazolium salts (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Sulphate, ethereal, formation from phenols *in vivo* (Bray, H. G. & White, K.) liii
Sulphocarboxylic imide, formation in oxidized wool (Alexander, P., Fox, M. & Hudson, R. F.) 129
Sulphonamide, formation in the peptide chain of wool (Alexander, P., Fox, M. & Hudson, R. F.) 129
Sulphur, excretion by rats following a zinc diet (Sadasivan, V.) 186
Sulphuric acid, conjugation of naphthol with (Berenbom, M. & Young, L.) 165
*Suprarenal, rat, Schultz reaction for cholesterol and cholesterol esters in (Ashford, C. A., Robinson, F. B. & Yoffey, J. M.) xxxii
Suprasterol III, isolation from irradiation products of sterols (Green, J.) 232
Surface-active substances, effect on cholinesterases (Ord, M. G. & Thompson, R. H. S.) 191
Surface film measurements for 'apparent protein' in human urine (Tárnoky, A. L.) 205
Surface tension, electronically controlled tensiometer for the study of changes in (Bayliss, R. K. & Pover, W. F. R.) lxii
Surface-tension method for determining apparent protein in urine (Tárnoky, A. L.) 205
*Syndrome, sprue, experimental studies in (Frazer, A. C., French, J. M. & Sammons, H. G.) lxiii
Synovial fluid, dimensions of the particle of hyaluronic acid complex in (Ogston, A. G. & Stanier, J. E.) 585

Tea leaf, polyphenols in, study by paper chromatography (Roberts, E. A. H. & Wood, D. J.) 414
Tea leaf, separation of polyphenols in, by paper chromatography with water as a mobile solvent (Roberts, E. A. H. & Wood, D. J.) xxxiii
Teepol, effect on liver β-glucuronidase (Walker, P. G. & Levvy, G. A.) 620
Teeth, composition of the rat incisor (Hartles, R. L.) 574
Temperature, breeding, effect on the carotenoid content of locusts (Goodwin, T. W.) 86
Temperature of rats in necrosis and effect on glutamic acid (Dawson, R. M. C.) 138
Tensiometer, electronically controlled, for the study of changes in surface tension (Bayliss, R. K. & Pover, W. F. R.) lxii
2:3:4:5-Tetrachloronitrobenzene, metabolism in the rabbit (Bray, H. G., Hybs, Z., Lake, H. J. & Thorpe, W. V.) lxv
2:3:5:6-Tetrachloronitrobenzene, metabolism in the rabbit (Bray, H. G., Hybs, Z., Lake, H. J. & Thorpe, W. V.) lxv
Tetrazolium salts, direct colorimetric estimation of reducing sugars with (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Thiazoles, mercapto-, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Thiohydantoins, antithyroid activity of (Searle, C. E., Lawson, A. & Morley, H. V.) 125
Thiopentone anaesthesia, glutamic acid content of rat brain in relation to (Dawson, R. M. C.) 138
Thiophosphate, *OO*-diethyl *O*-*p*-nitrophenyl, cholinesterase inhibition *in vitro* by (Diggle, W. M. & Gage, J. C.) 491
Thrombin formation in blood and plasma, inhibition by poly-amino-acids (Vries, A. de, Schwager, A. & Katchalski, E.) 10
Thymine, oxidation by an unidentified bacterium (Batt, R. D. & Woods, D. D.) lxx
Thyroid activity, measurement of, and its relation to the basal metabolic rate (Haigh, C. P., Reiss, J. M. & Reiss, M.) xxv
Thyroxine, action on oxidative phosphorylation (Judah, J. D.) 271
Thyroxine antagonists (Wilkinson, J. H., Sheahan, M. M. & Maclagan, N. F.) 710, 714
Tomato bushy stunt virus, nucleic acid of (Markham, R. & Smith, J. D.) 401
Toxic agents, biochemical studies of (Berenbom, M. & Young, L.) 165
Transamination between tyrosine and α-ketoglutarate (Knox, W. E. & LeMay-Knox, M.) 686
Transfructosidation in extracts of the tubers of *Helianthus tuberosus* L. (artichoke) (Edelman, J. & Bacon, J. S. D.) 529
Transphosphorylation and site of action of 2:4-dinitrophenol (Judah, J. D.) 271
1:1:1-Trichloro-2:2-di-*p*-chlorophenylethane (DDT), insecticidal action of (Skerrett, E. J., Stringer, A. & Woodcock, D.) xxviii
Triosephosphate dehydrogenase, inhibition by glyceraldehyde (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Triphenylformazan, properties of (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Triphenyltetrazolium bromide, use for (Fairbridge, R. A., Willis, K. J. & Booth, R. G.) 423
Trisaccharide, formation from sugar by transfructosidation (Edelman, J. & Bacon, J. S. D.) 529
Triton X-100, effect on the granular enzyme of mouse liver (Walker, P. G. & Levvy, G. A.) 620
Tropomyosin, end groups of (Bailey, K.) 23
Tropomyosin particles, size, shape and aggregation of (Tsao, T.-C., Bailey, K. & Adair, G. S.) 27
Trypanosoma lewisi, metabolism of (Ryley, J. F.) 577
Trypsin, digestion of cytochrome *c* by (Tsou, C. L.) 362
Trypsin, hydrolysis of a fraction of oxidized insulin by (Sanger, F. & Tuppy, H.) 481
Trypsin inhibitor from the pancreas (Green, N. M. & Work, E.) xxxvii
Tryptamine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Tubers, action of a hydrolytic enzyme system from *Helianthus tuberosus* L. on carbohydrates present in (Edelman, J. & Bacon, J. S. D.) 446
Tubers of *Helianthus tuberosus* L. (artichoke), transfructosidation in extracts of (Edelman, J. & Bacon, J. S. D.) 295
Tuberculosis and apparent protein in urine (Tárnoky, A. L.) 205
Tumours, animal, hexokinase activity of (Boyland, E., Goss, G. C. L. & Williams-Ashman, H. G.) 321
Turacin and the supposed catalytic activity of copper-porphyrins (Keilin, J.) 544
Turacin, further study of (Nicholas, R. E. H. & Rimington, C.) xxxiii
Turacin, spectra of (Keilin, J.) 544
Turnip yellow mosaic virus, nucleic acids of (Markham, R. & Smith, J. D.) 401

Turnover number of enzymes, calculation of (Berry, W. K.) 615
Tyramine, filter-paper chromatography of, colour reaction with ninhydrin (Bremner, J. M. & Kenten, R. H.) 651
Tyramine hydrochloride, effect on oxygen uptake in autolysing tissue (Dianzani, M. U.) 427
Tyramine, hydroxy-, in normal human urine (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Tyrosine in insulin (Phillips, D. M. P.) 506
Tyrosine, oxidation of (Knox, W. E. & LeMay-Knox, M.) 686

Udder, bovine, synthesis of milk fat from labelled acetic acid in (Cowie, A. T., Duncombe, W. G., Folley, S. J., French, T. H., Glascock, R. F., Massart, L., Peeters, G. J. & Popják, G.) 610
Ultraviolet irradiation and purification of vitamins D (Green, J.) 54
Ultraviolet, short-wave, simple filter outfit for (Markham, R. & Smith, J. D.) 407
Urea, action on the disulphide groups of oxidized glutathione and cystine (Cecil, R.) 183
Urinary acids, paper chromatography of (Boscott, R. J.) lxxiv
Urinary components in rats and human subjects with fibrosis of the liver (Aterman, K. & Boscott, R. J.) lxxiv
Urine, 'apparent protein' in, some surface film measurements (Tárnoky, A. L.) 205
Urine, benzene, muconic acid in (Parke, D. V. & Williams, R. T.) lii
Urine during pregnancy or lactation, growth hormone in samples of (Cotes, P. M. & Young, F. G.) lix
Urine, human, β-(3:4-dihydroxyphenyl)ethylamine (hydroxytyramine) in (Euler, U. S. von, Hamberg, U. & Hellner, S.) 655
Urine of pregnant women, *allo*pregnane-3α:20α-diol in (Kyle, T. I. & Marrian, G. F.) 80
Urine of rats dosed with 1- and 2-naphthol, isolation of 1- and 2-naphthylsulphuric acid and 1- and 2-naphthylglucuronide from (Berenbom, M. & Young, L.) 165
Urine, pregnant mares', some steroids of (Brooks, R. V., Klyne, W. & Miller, E.) xl
Urine, spectrophotometric assay of ascorbic acid in, with *peri*naphthindanetrione hydrate (El Ridi, M. S., Moubasher, R. & Hassan, Z. F.) 246
Uronic acids, micro-method for the estimation of (Ogston, A. G. & Stanier, J. E.) 591
Uroporphyrin III, copper-, inactivity of turacin towards (Keilin, J.) 544
Uroporphyrin III, isolation of (Nicholas, R. E. H. & Rimington, C.) xxxiii
Uterus of pregnant sheep, iron metabolism of (Ramsay, W. N. M.) 494
Utilization of acetate and glucose by lactating mammary gland slices (Balmain, J. H. & Folley, S. J.) 663

Veillonella gazogenes, succinic and lactic dehydrogenases in (Johns, A. T.) 559
Venom, cobra, specificity of cholinesterase of (Mounter, L. A.) xlv
Vesicant substance of the buttercup, precursor of (Hill, R. & van Heyningen, R.) 332
Vibrio 01, formation of succinic acid from β-ketoadipic acid by (Kilby, B. A.) 671
Virus, gipsy-moth polyhedral, isolation of deoxypentose nucleic acids from strains of (Smith, J. D. & Wyatt, G. R.) 144
Virus, tomato bushy stunt, nucleic acids of (Markham, R. & Smith, J. D.) 401
Virus, turnip yellow mosaic, nucleic acids of (Markham, R. & Smith, J. D.) 401
Viscosity, studies on tropomyosin (Tsao, T.-C., Bailey, K. & Adair, G. S.) 27
Vitamin A, destruction on floridin earth (Green, J.) 45
Vitamin A, distribution in male and female rats at different levels of dosing (Moore, T., Sharman, I. M. & Ward, R. J.) xxxix
Vitamin A, distribution in the organs of marine Crustacea (Fisher, L. R., Kon, S. K. & Thompson, S. Y.) xv
Vitamin A in castrated male rats, effect of sex hormones on the distribution of (Moore, T., Sharman, I. M. & Ward, R. J.) xiii
Vitamin A in the kidney of the rat (Eden, E. & Moore, T.) 77
Vitamin A levels, variation in cows near parturition (Goodwin, T. W. & Wilson, A. A.) 499
Vitamin A, reaction with iodine trichloride (Green, J.) 36
Vitamin A, separation from vitamins D (Green, J.) 45
Vitamin A, separation from vitamins D by condensation and selective irradiation (Green, J.) 54
Vitamin A, studies in (Goodwin, T. W. & Wilson, A. A.) 499
Vitamin B_{12} activity for chicks (Coates, M. E., Ford, J. E., Harrison, G. F., Kon, S. K., Porter, J. W. G., Cuthbertson, W. F. J. & Pegler, H. F.) lxvii
Vitamins B, effect of antibiotics on the growth of chicks deprived of (Coates, M. E., Dickinson, C. D., Harrison, G. F. & Kon, S. K.) lxviii
Vitamin C-deficient skin wounds, abnormal mucopolysaccharides and 'precollagen' in (Bradfield, J. R. G. & Kodicek, E.) xvii
Vitamin D, analysis of the irradiation products of ergosterol and 7-dehydrocholesterol for (Green, J.) 232
Vitamins D, studies in the analysis of (Green, J.) 36, 45, 54, 232, 243

Walnut (*Juglans regia*), determination of ascorbic acid in (Daglish, C.) 639
Walnut (*Juglans regia*), spectrophotometric determination of ascorbic acid in tissue extracts of (Daglish, C.) 635
*Water and electrolyte exchange in rats, apparatus for the estimation of (Cole, D. R. & Tranter, S. J.) lxii
Wheat germ, action of catalase and peroxidase of, on hydrogen peroxide (Stern, R. & Bird, L. H.) 335
Wool keratin, oxidation of (Blackburn, S. & Lowther, A. G.) 554
Wool, reaction of oxidizing agents with (Alexander, P., Fox, M. & Hudson, R. F.) 129
Wounds, vitamin C-deficient skin, abnormal mucopolysaccharides and 'precollagen' in (Bradfield, J. R. G. & Kodicek, E.) xvii

X-rays, effect on phosphorus compounds of bone marrow (Lutwak-Mann, C.) 300
Xylose as hydrogen donator in the reduction of nitrate by rumen micro-organisms (Lewis, D.) 419

Yeast, citrate oxidation factor from (Foulkes, E. C.) lx
Yeast extract, acceleration of decarboxylation of L-malic acid by (Nossal, P. M.) 407
Yeast hexokinase, inhibition of glycolysis by glyceraldehyde (Needham, D. M., Siminovitch, L. & Rapkine, S. M.) 113
Yeast, occurrence of glycerylphosphorylethanolamine in extract of (Campbell, P. N., Simmonds, D. H. & Work, T. S.) xvi
Yeasts, ester formation by (Davies, R., Falkiner, E. A., Wilkinson, J. F. & Peel, J. L.) 58; (Peel, J. L.) 62

Zinc, biochemistry of (Sadaşivan, V.) 186
